| o. Troject Description (see matractions) | | | | |
|---|--|--|--|--|
| The Phase II Goldsboro Water Main Replacement project (Project WR-04 in the approved CIP) consists of the replacement of approximately 3,500 LF of 24" steel watermain, approximately 2,200 LF of 16" steel watermain, and 1,200 LF of 12" asbestos | | | | |
| cement watermain on Goldsboro, Ward, and US-301. The steel watermains we | ere originally installed between 1960 and 1961. The | | | |
| asbestos cement watermain is estimated to be installed sometime in the 1950's | 3. | | | |
| | | | | |
| City staff have responded to numerous watermain breaks along both steel water | ermains over the past several years. | | | |
| | • | | | |
| The City is requesting funding for the design and construction of an in-kind re | eplacement of the entire water main loop to minimize | | | |
| the potential for future breaks and increase reliability of water service in Wilson | • | | | |
| the potential for fature oreans and increase remaining of water service in wrist | л. | | | |
| | | | | |
| | т — — — — — — — — — — — — — — — — — — — | | | |
| Estimated number of new connections served by project (if applicable): | 0 | | | |
| For Construction Projects and Pre-Construction Planning Grants only: | | | | |
| The proposed project is a result of an Asset Inventory and Assessment Grant previously awarded by the Division? | | | | |
| The proposed project is a result of a Merger / Regionalization Feasibility Grant previously awarded by the Division? | | | | |
| \square None of the above. | | | | |

Certification by Authorized Representative

The attached statements and exhibits are hereby made part of this application, and the undersigned representative of the Applicant certifies that the information in this application and the attached statements and exhibits are true, correct, and complete to the best of his/her knowledge and belief. By initialing each item and signature at the end of this application, he/she further certifies that:

NB

1. as Authorized Representative, he/she has been authorized to file this application by formal action of the governing body;

WIB

2. the governing body agrees to provide for proper short-term and long-term maintenance and operation of the approved project after its completion;

WIB

3. the Applicant has substantially complied with or will comply with all federal, state, and local laws, rules, and regulations and ordinances as applicable to this project;

WIB

4. the Applicant will adopt and place into effect on or before the completion of the project a schedule of fees and charges which will provide for the adequate and proper operation, maintenance, and administration and repayment of all principal and interest on loans (if applicable) of the project;

WIB

5. the Applicant has followed proper accounting and fiscal reporting procedures, as evidenced by the Applicant's most recent audit report, and that the Applicant is in substantial compliance with provision of the general fiscal control laws of the State;

WIB

6. the Project Budget for construction projects and pre-construction planning grants provided in this application form (if applicable) includes all funding requested from all sources of funding proposed for this project;

MB

7. the City of Wilson, North Carolina is organized and chartered under the laws of North Carolina, or the special purpose unit of local government is incorporated under the laws of North Carolina. All officials and employees are aware of, and in full compliance with NCGS 14-234, "Public officers or employees benefiting from public contracts; exceptions." (For units of local government only. All others should initial "N/A");

WTB

8. the Applicant acknowledges that all loans, and Viable Utility Reserve grants, are subject to approval by the Local Government Commission;

WTO

9. the Applicant acknowledges that, in accordance with G.S. 120-157.2, for local government debt to be issued greater than \$1,000,000, the local government must report to Committee Chairs, Committee Assistant, and the Fiscal Research Division of the General Assembly at least 45 days prior to presentation before the Local Government Commission (For units of local government only. All others should initial "N/A"); and

NTO

10. if the Applicant receives a grant with American Rescue Plan Act (ARPA) State Fiscal Recovery Funds, the Applicant acknowledges and accepts the following conditions:

a) all ARPA project funds must be reimbursed by December 31, 2026;

b) project funds will not be used to pay existing debt or as a match for other federal funds;

c) if the project is also funded with other federal funds, the federal requirements of the other funds will apply to the ARPA funds; and

d) for projects receiving ten million dollars or more in ARPA funding; recipients must certify or provide plans and reports meeting federal requirements on reporting on prevailing wage rates, project labor agreements, and related information as specified in the U.S. Treasury's <u>Compliance and Reporting Guidance</u> for the State and Local Fiscal Recovery Funds (pages 21-22).

| Completeness Checklist | | | |
|--|---|--|--|
| In addition to this application, the following items must be included for a complete application package. Incomplete applications will not be considered. Please initial that each item is included in this submittal. | | | |
| MB | Resolution by Governing Body of Applicant with Certification by Recording Officer* | | |
| WID | Water & Sewer Financial Information Form* | | |
| NIS | Fund Transfer Certification* | | |
| W18_ | Applicable Priority Rating System Form* with supporting narratives and documentation | | |
| WITS | Affordability Calculator* or handwritten affordability calculations | | |
| NTS | Current rate sheets in effect on application deadline (for <u>both</u> water <u>and</u> sewer if the utility provides both water and sewer, or for water or sewer depending on the utility service) | | |
| WIS | PE Seal on project budget (construction projects and pre-construction planning grants only. All others initial "N/A") | | |
| <u> </u> | Supporting documentation/maps for construction projects that connect residences in disadvantaged, underserved areas to water/wastewater utility (if applicable. If not applicable, initial "N/A") | | |
| * Forms and temp | plates are available separately on the <u>Division's website</u> . | | |

^{**} For each application, please provide copies that are <u>bound</u> (e.g., report cover with fasteners, plastic report combs, spiral or 3-ring binders). No paper clips, staples or binder clasps. **

Submittal Information

• Send one (1) original hard copy and one (1) electronic copy of the Application.

Send complete Application package to:

Resolution by City Council

R-013-22

RESOLUTION BY CITY COUNCIL OF THE CITY OF WILSON, NORTH CAROLINA

WHEREAS, The Federal Clean Water Act Amendments of 1987 and the North Carolina the Water Infrastructure Act of 2005 (NCGS 159G) have authorized the making of loans and grants to aid eligible units of government in financing the cost of construction of wastewater collection system improvements, drinking water distribution system improvements, and studies of the wastewater collection system, and

WHEREAS, The City of Wilson has the need for and intends to replace the existing wastewater collection system outfall gravity lines identified as The Lower Bloomery and Old Fields Outfall Sewer Lines, and

WHEREAS, The City of Wilson has the need for and intends to replace and/or rehabilitate the existing drinking water distribution system lines identified as The Steel Water 24-Inch Line Replacement Phase II, and

WHEREAS, The City of Wilson has the need for and intends to conduct a condition study assessment, capacity evaluations, risk assessments, and overall planning elements including the refinement of the capital improvement plans on the wastewater collection system, and

WHEREAS, The City of Wilson intends to request State loan and grant assistance for the projects,

NOW THEREFORE BE IT RESOLVED, BY THE CITY COUNCIL OF THE CITY OF WILSON

That City of Wilson will arrange financing for all remaining costs of the project, if approved for a State loan or grant award.

That the City of Wilson will adopt and place into effect on or before completion of the project a schedule of fees and charges and other available funds which will provide adequate funds for proper operation, maintenance, and administration of the system and the repayment of all principal and interest on the debt.

That the governing body of the City of Wilson agrees to include in the loan agreement a provision authorizing the State Treasurer, upon failure of the City of Wilson to make scheduled repayment of the loan, to withhold from the City of Wilson any State funds that would otherwise be distributed to the local government unit in an amount sufficient to pay all sums then due and payable to the State as a repayment of the loan.

That the City of Wilson will provide for efficient operation and maintenance of the project on completion of construction thereof.

That W.T. Bass, IV, the **Authorized Official**, and successors so titled, is hereby authorized to execute and file an application on behalf of the City of Wilson with the State of North Carolina for a loan and or grant to aid in the study of and construction of the projects described above.

That the **Authorized Official**, and successors so titled, is hereby authorized and directed to furnish such information as the appropriate State agency may request in connection with such application or the project: to make the assurances as contained above; and to execute such other documents as may be required in connection with the application.

That the City of Wilson has substantially complied or will substantially comply with all Federal, State, and local laws, rules, regulations, and ordinances applicable to the project and to Federal and State grants and loans pertaining thereto.

Adopted this the April 21, 2022 at Wilson, North Carolina.

Carlton L. Stevens, Mayor

ATTEST:

Tonya A. West, City Clerk

CERTIFICATION BY RECORDING OFFICER

The undersigned duly qualified and acting Clerk of the City of Wilson does hereby certify: That the above/attached resolution is a true and correct copy of the resolution authorizing the filing of an application with the State of North Carolina, as regularly adopted at a legally convened meeting of the City Council of the City of Wilson duly held on the <u>21st</u> day of April 2022; and, further, that such resolution has been fully recorded in the journal of proceedings and records in my office. IN WITNESS WHEREOF, I have hereunto set my hand this <u>21st</u> day of <u>April</u>, <u>2022</u>.

Tonya A. West, City Clerk - City of Wilson

Priority Rating System

Priority Rating System Score Sheet for Drinking Water Projects

PRIORITY RATING SYSTEM for Drinking Water Projects

Instructions: For each line item, <u>mark "X" to claim the points for that line item</u>. Be sure that your narrative includes justification for every line item claimed. At the end of each Category, provide the total points claimed for each program in the subtotal row for that category. Then add the subtotals from each category and enter the Total of Points for All Categories in the last line. Note that some categories have a maximum allowed points that may be less than the total of individual line items.

| | | Claimed | |
|----------------|---|-------------------|--------|
| Line Item# | Category 1 – Project Purpose | Claimed Yes/No | Points |
| 1.A | Project will consolidate a nonviable drinking water or wastewater utility | | 25 |
| 1.B | Project will resolve failed infrastructure issues | | 25 |
| 1.C | Project will rehabilitate or replace infrastructure | Х | 12 |
| 1.C.1 | Treatment units, pumps and/or pump stations to be rehabilitated or replaced are greater than 20 years old, OR water/sewer lines, storage tanks, drinking water wells or intake structures to be rehabilitated or replaced are greater than 40 years old | Х | 8 |
| 1.D | Project will expand infrastructure | | 2 |
| 1.D.1 | Treatment units, pumps and/or pump stations to be rehabilitated or replaced are greater than 20 years old, OR lines, storage tanks, drinking water wells or intake structures to be rehabilitated or replaced are greater than 40 years old | | 8 |

Project Narrative

City of Wilson – Water System Improvements

Watermain Replacement Project - Goldsboro Phase II - 24"

Line Item 1.C (Expand Infrastructure) and 1.C.1 (Expanded Especially Old Infrastructure)

The watermain replacement project consists of the design and replacement of approximately 3,500 LF of 24" steel watermain, approximately 2,200 LF of 16" steel watermain, and 1,200 LF of 12" asbestos cement watermain along Goldsboro, Ward, and US-301. The 24" steel watermain along Goldsboro (labeled as US 301-A on **Attachment 1**) and the 16" steel watermain were constructed in 1961. The 12" asbestos cement pipe is suspected of being constructed sometime in the 1950s or 1960s (GIS states 1950s but record drawings could not be found). The date on the plans is not completely legible, however, the cover page lists John D. Wilson as the mayor at the time the project was completed. Figure 1 shows all mayors from 1927 through today. John D. Wilson is listed as the Mayor from 1953-1965.

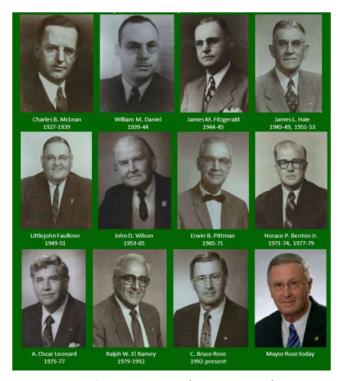

Figure 1: City of Wilson Mayors (1927 - Present)

The 24" steel watermain is a primary connection to the Wiggins Mill water plant and is a primary supplier of water to downtown businesses and residential buildings.

The size and capacity of the lines will not be increased.

All proposed lines will be installed parallel of the existing lines to maintain uninterrupted operation during construction. However, the existing lines will be abandoned and either removed or have flowable fill injected once the new lines are operational.

The replacement of 6,900 LF of watermain pipe aged approximately 61 years will help the City provide uninterrupted water to the City's residents. The current watermain has experienced a significant number of leaks, resulting in emergency repairs over the last two years. **Attachment 2** contains a list of FixIt Tickets for the associated work orders.

Construction plans have not been created as design has not been completed.

<u>Line Item 3.A.1 – Applicant has implemented an Asset Management Plan</u>

The City of Wilson has implemented a combined water and sewer asset management plan. The plan addresses the collection system, the water distribution system, and all associated treatment works. A 10-year CIP is also included as part of the plan. Additional details and a copy of the entire asset management plan is included in the submittal packet and on the flash drive.

Inventory of assets including maps

The City has a complete inventory of all assets including maps in GIS of all known assets for the water collection system and water treatment facilities. **Attachment 3** provides a highlight of the project area and a random location downtown showing the extent of the available data.

Assessment of the condition of the infrastructure in the inventory

Currently, the City of Wilson uses age of infrastructure for a proxy of condition. Specifically, Table 1 outlines the scoring matrix:

Table 1: Current Condition Assessment

| Age of Materials | Years Built | Condition Assessment |
|---------------------------|-------------|----------------------|
| < 10 years | 2013 - 2022 | Great |
| < 20 years but > 10 years | 2003 - 2012 | Good |
| < 30 years but > 20 years | 1993 - 2002 | Fair |
| < 40 years but > 30 years | 1983 - 1992 | Poor |
| > 40 years | 1900 - 1982 | Failing |

Additional information on future processes for determining condition assessment is included in the Asset Management Plan. The watermain project described in this application is greater than forty years old, thus is rated as failing using our current methodology.

A capital improvement plan (CIP) with projected cost estimates

A new capital improvement was adopted by City Council on April 21, 2022 for a 10-year timeframe and include costs estimates for the first five years. The watermain replacement project described in this application is referenced as Project Number WR-01 "24" Replace — Main Goldsboro — Phase II (Loop)" within the CIP document. The CIP document and supporting material are included in **Attachment 4**.

An operation and maintenance plan to ensure proper management of the assets

The City of Wilson has a robust operations and maintenance plan. For the collection and distribution system, the City has standard procedures and processes from the review, construction inspection, and acceptance of new infrastructure through the Engineering Division detailed in the City of Wilson Specification Manual (Attachment 5). After new lines are accepted, the Water Infrastructure division handles routine operation and maintenance of the system, which includes an annual valve turning program (contracted through Xylem), two crews flushing/cleaning gravity sewers with three City owned Vac Trucks, and a crew dedicated to CCTV inspection of cleaned lines and of problem areas identified through the City's work order system (FixIt). Additionally, the City of Wilson Fire Department assists with the flushing and maintenance of the hydrants including a hydrant exercise schedule and flow and pressure testing on all hydrants once every five years. The pump stations, water tanks, and other mechanical components of the collection system are maintained by Water Resources from the water plant and wastewater plant staff as appropriate.

The Wiggins Mill and Toisnot Water Treatment Plants and the Hominy Creek Water Reclamation Facility utilize the Antero CMMS (Computerized Maintenance Management Software) for all of its preventative maintenance needs. See **Attachment 6** for a sample of the CMMS display to the operators. The system has new equipment entered while automatically generating preventative maintenance tasks. Equipment manuals are available within the system and hard copies are located in the Operations and Maintenance Supervisors office.

There are five elevated drinking water storage tanks in the single pressure zone system, each capable of holding one million gallons of water. The construction years are 1939, 1964, 1977, 2000, and 2004. Every two years, cleaning and inspections of the interiors of the tanks is accomplished. Painting of the interiors is accomplished every 12-15 years, while every 9-12 years, the exteriors are cleaned and painted.

In addition to the treatment facilities, Water Reclamation Facility staff operate and maintain the twenty-one off-site wastewater pump stations that transport wastewater via the collection system to the treatment facility. Maintenance of these pump stations includes weekly site visits, exercising the generators under load once per month, regular service as prescribed by the manufacturers and tracked through the CMMS. Additionally, the staff also maintain the two elevated reclaim water storage tanks. One tank holds 0.25 MG and the other tank holds 1.0 MG. There are currently over 500 pieces of equipment at the wastewater pump stations and elevated reclaim water storage tanks that are being monitored and maintained with Antero CMMS.

<u>Line Item 3.B – System Operating Ratio greater than or equal to 1.00</u>

For FY 2021, the City has an OR greater than one as shown in the calculation below from the information in the Financial Information Form. Additionally, the five-year average is also greater than 1.00.

$$OR \ = \frac{Operating \ Revenues}{(Total \ Expenditures + Debt \ Principal + Interest + Capital \ Outlay)}$$

$$OR = \frac{\$28,215,709}{(\$18,264,013 + \$3,542,700 + \$404,651 + \$4,762,411)}$$

$$OR = 1.05$$

Attachment 7 provides certified copies of all financial forms.

Line Item 4.B - Current Monthly Utility Rate at 5,000 Gallons

Supporting calculation:

Base Rate for Water (3/4" Meter) = \$12.00 per month

Water Use Rate (0 - 50 ccf) = \$3.91 per ccf

Base Rate for Sewer (3/4" Meter) = \$13.00 per month

Base Use Rate = \$5.40 per ccf

Sewer usage assumed to be 90% of water usage

$$Water\ Usage\ (ccf) = 5,000 \frac{gallons}{month} * \frac{1\ CF}{7.48\ gallons} * \frac{CCF}{100\ CF} = 6.68\ ccf/month$$

$$Water\ Charge\ per\ month\ (\$) = \$12.00 + \frac{\$3.91}{ccf} * \frac{6.69\ ccf}{month} = \frac{\$38.16}{month}$$

$$Sewer\ Usage\ (ccf) = 0.9 * 5,000 \frac{gallons}{month} * \frac{1\ CF}{7.48\ gallons} * \frac{CCF}{100\ CF} = 6.01\ ccf/month$$

$$Sewer\ Charge\ per\ month\ (\$) = \$13.00 + \frac{\$5.40}{ccf} * \frac{6.01\ ccf}{month} = \frac{\$45.45}{month}$$

Total Water and Sewer Bill for 5,000 Gallons = \$38.16 (water) + \$45.45 (sewer) = \$83.61

Attachment 8 provides a certified copy of utility rates for the current fiscal year.

<u>Line Item 4.C.3 – Local Government Unit Indicators</u>

See attached affordability calculator in **Attachment 9**. The City of Wilson has five out of five LGU indicators worse than the state benchmark.

Capital Improvement Plan and Supporting Documentation

EXCERPT OF MINUTES OF THE APRIL 21, 2022 MEETING OF THE CITY COUNCIL OF THE CITY OF WILSON, NORTH CAROLINA

Certification

I, Tonya A. West, City Clerk of the City of Wilson, North Carolina, do hereby certify that the foregoing is an excerpt of the minutes of the April 21, 2022 meeting of the City Council of the City of Wilson, North Carolina, as prepared by the City Clerk.

<u>Item 8</u> Consideration of Support of Adoption of a 10-Year Capital Improvement Plan (CIP) for Water and Sewer Infrastructure

Mayor Stevens read Item 8, included with the Consent Agenda items, and called for a motion. Councilmember Evans made a motion to approve the Consent Agenda, including Agenda Item 8. Councilmember Liles seconded the motion, which passed unanimously.

(See Exhibit 6 – Staff Notes for Item 8)

WITNESS MY HAND AND THE SEAL OF THE CITY OF WILSON, NORTH CAROLINA, this the 25th day of April, 2022.

CITY OF WILSON

City Council Meeting Agenda

Remote Communications Technology & Live Stream

(May be Viewed Live on Wilson's Channel 8 on Greenlight and Other Local Cable Systems or by Live Stream from the City's Website, www.WilsonNC.org)

Due to public health concerns, out of an abundance of caution and pursuant to the authority contained in GS 166A-19.24, the Wilson City Council hereby gives notice that the format and the traditional meeting process for the April 21, 2022 Council meeting is being altered to accommodate and encourage positive public health practices and reduce the risk of spreading Covid-19. The April 21, 2022 Council meeting will incorporate virtual meeting practices and remote communications technology. The public is encouraged to watch the business meeting streamed live at 7:00 p.m. on the City's website www.wilsonnc.org or on Wilson's Channel 8 on Greenlight and other local cable systems. The meeting will begin at 6:30 pm with a closed session pursuant to GS 143-318.11(a)(3). Anyone wishing to speak during the public comment period of the meeting or during any public hearing may submit written comments or contact the City Clerk by 12:00 noon on Thursday, April 21, 2022 at twest@wilsonnc.org or (252) 399-2302.

April 21, 2022 – 7:00 p.m.

Closed Session – 6:30 p.m.

- 1. Invocation
- 2. Pledge of Allegiance
- **3.** Proclamation Proclaiming Thursday, May 5, 2022, as "National Day of Prayer" in Wilson, North Carolina
- 4. Consent Agenda (All matters listed are considered to be routine and non-controversial by City Council and will be enacted by one motion. There will be no separate discussion unless a Council member so requests, in which case the item will be removed from the Consent Agenda and will be considered separately.):
 - 4a. Consideration of Approval of Proposed Special City Council Meeting Minutes of March 2, 2022 and Regular City Council Meeting Minutes of March 3, 2022 and March 17, 2022
 - 4b. Consideration of Approval of Tax Collections Report for February 2022
 - 4c. Consideration of Resolution Proposing to Dispose of Surplus Equipment by Public Auction

Public Hearings

5. Public Hearing Items - Regular

This agenda can be viewed on the City of Wilson home page at www.WilsonNC.org

5a. Consideration of Approval of an Ordinance Directing Demolition and that the Building Inspector Place a Notice Thereon that the Property is Unfit for Human Habitation and that the Same May Not Be Occupied for the Property Located at 1310 Nash Street, South East; PIN # 3721-77-1443-000

Public Hearing Items - Planning & Design Review Board

- 5b. Consideration of Approval of Ordinance for Zoning Change Request; Approximately 0.21 acres located at 5333 NC HWY 58, Just North of 5232 NC HWY 58; Wilson Parcel # 3714-08-6461.000 (PIN); Present Use –Vacant; Present Zone LI (Light Industrial); Requested Zone GC (General Commercial); Requested by Ron Sutton, Herring-Sutton & Associates, P.A. as agent for 3 CORDS, LLC; (Project # 22-32)
- 5c. Consideration of Approval of Ordinance for Zoning Change Request; Approximately 4.13 acres located at 1300 Tobacco Road, South, Located on Tobacco Road, abutting the Norfolk & Southern Railway; Wilson Parcel # 3721-34-0872.000 (PIN); Present Use Warehouse; Present Zone HI (Heavy Industrial); Requested Zone LI (Light Industrial); Requested by Roy Harrington on behalf of Harrington Companies, LLC (Project # 22-79)
- 5d. Consideration of Approval of Ordinance for Zoning Text Change Request Technical Amendments to Chapter 16 of the UDO and Updates to Areas of the UDO to Comply with State Statutes (Project # 22-119)

End of Public Hearings

- 6. Consideration of Approval of Budget Amendment Ordinances for 2021-2022 Budget
- 7. Consideration of Approval of Updated Fiscal Guidelines and Budget Policies
- **8.** Consideration of Support of Adoption of a 10-Year Capital Improvement Plan (CIP) for Water and Sewer Infrastructure
- **9.** Consideration of Approval of a Resolution Authorizing an Application for Loan/Grant Funds for the Clean Water State Revolving Fund (CWSRF)
- **10.** Report(s)
- 11. Call on the Audience

Meeting Date April 21, 2022

City Council Agenda Item Cover Sheet

To: Honorable Mayor, Members of City Council and City Manager

From: W. T. Bass, IV, P.E., Director of Public Works

Subject: Request by Public Works Department in Support of Adoption of a 10 CIP for

Water and Sewer Infrastructure

Issue: Adoption of a 10 CIP plan for Water and Sewer System.

<u>Background / Summary:</u> As the city pursues grants for infrastructure improvements, a 10-year CIP provides additional points in the scoring process.

<u>Fiscal or Other Impact:</u> As our infrastructure ages and demand increases, the need to replace and upgrade grows. The ability to apply and receive grants is important to maintain our infrastructure.

Recommendation: Public Works recommends approval of adoption of a 10-year CIP for water and sewer infrastructure.

Coordination: Public Works Department

Attachments: 10 year CIP

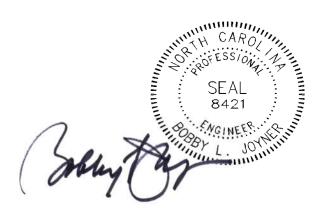

Attachment 5

City of Wilson Specification Manual

TABLE OF DETAILS

| Detail | Title |
|------------------|---|
| Numbe | r |
| | Common Details |
| C01.01 | Detail of Rock Excavation |
| C01.02 C01.03 | Unsuitable Subgrade Trench Detail Type A (Sewer & Storm Drainage) Pavement Surface Repair |
| C01.03 | Minimum Separation of Utilities and Other Features |
| C06.01 | Standard Manhole Frame & Cover |
| C06.02 | Blank |
| C06.03 | Standard Manhole Ring and Cover Grade Adjustment (2 Sheets) |
| C06.04 | Manhole Adjusting Ring (Resurfacing Applications Only) |
| C06.05 | Valve Box Adjusting Ring (Resurfacing Applications Only) |
| C06.06 | Polypropylene Plastic Step |
| C07.01 C07.02 | Typical Residential Utility Location Blank |
| C07.02 | Typical Detail for Bore Under Paved Roads / Highways (2 Sheets) |
| C07.04 | Standard Stream/Creek Crossing (Steel Encasement) |
| C07.05 | Standard Stream/Creek Crossing (Concrete Encasement) |
| C08.01 | Standard Plan Sheet Layout For Construction Plans Requirements (2 Sheets) |
| C08.02 | Standard Plan Sheet Layout For Site and Preliminary Plans |
| | Landscape Details |
| 350.01 | Seeding Specifications |
| | |
| 054.04 | Erosion & Sedimentation Control Details |
| 351.01 351.02 | Typical Silt Fence (2 Sheets) Typical Silt Fence Outlet Relief Point |
| 352.01 | Skimmer Detail |
| 352.02 | General Notes – Sediment Basins |
| 352.03 | Skimmer Sediment Basins (Under 10 Acres) – (2 Sheets) |
| 352.03 | Skimmer Sediment Basins (Over 10 Acres) – (2 Sheets) |
| 352.04 | Rip Rap / Gravel Temporary Sediment Trap (2 Sheets) |
| 352.05 | Block & Gravel Inlet Protection (2 Sheets) |
| 352.06 | Baffle Detail (2 Sheets) |
| 353.01 353.02 | Stabilizing Channels (2 Sheets) Detail for Stabilizing Channels (3 Sheets) |
| 353.02 | Detail for Stabilizing Slopes (3 Sheets) |
| 353.04 | Earth Berm Diversion Detail |
| 353.05 | Temporary Fill Diversion Detail |
| 353.06 | Diversion Construction Specifications Detail |
| 353.07 | Compost Blanket Detail & Notes |
| 353.08 | Rip-Rap Lined Channels for the Conveyance of Stormwater |
| 354.01 | Check Dam Detail (2 Sheets) |
| 354.02 354.03 | Check Dam with Weir Detail (2 Sheets) Wattle Check Dam Installation Detail |
| 354.04 | Standard Inlet / Basin Sediment Control Device |
| 355.01 | Pipe Inlet Protection |
| 355.02 | Blank |
| 355.03 | (Rock) Pipe Inlet Protection (2 Sheets) |
| 355.04 | Standard Inlet / Basin Sediment Control Device |
| 355.05 | Preformed Scourhole / Plunge Pool |
| 356.01 | Stabilized Construction Entrance Detail |
| 356.02 | Standard Residential Construction Entrance |
| 356.03 356.04 | Standard Construction Exit Wash Rack Temporary Stream Crossing (Pipe Culverts) (2 Sheets) |
| 356.05 | Temporary Stream Crossing (Fridgemat) (2 Sheets) |
| 357.01 | Surface Roughening by Tracking |
| £ \ \ /: | Manual of Chapitinations Standards & Dogins Santamber |

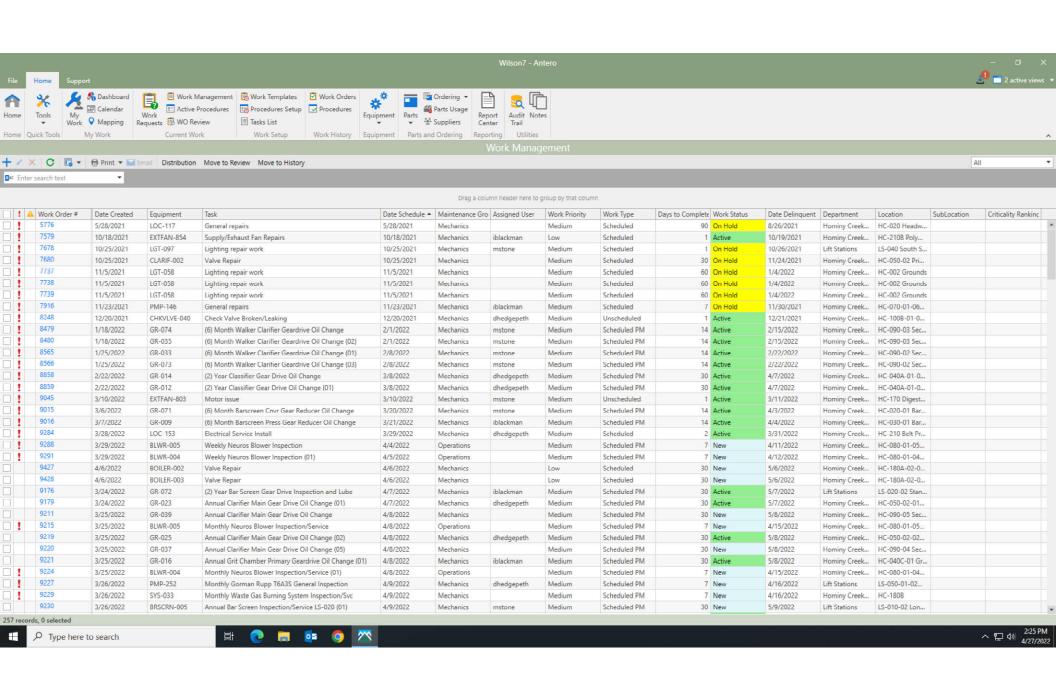

| 358.01 | Pipe Slope Drain Detail |
|------------------|---|
| 359.01 | Concrete Washout Pit Details |
| 359.02 | Dewatering Bag Silting Basin |
| | |
| | Street Details |
| 401.01 | Typical Street Cross Section (Curb and Gutter Applications) (3 Sheets) |
| 401.02 | Temporary Turn-A-Round Dimensions |
| 401.03 | Blank |
| 401.04 | Cul-De-Sac Dimensions |
| 402.01 | Concrete Curb, Gutter and Curb with Gutter |
| 402.02 | Std. Transition from Inlet to Std. C&G / Roll Type Gutter |
| 402.03 | Typical Valley Gutter Detail & Driveways |
| 403.01 | Blank |
| 403.02 | Blank |
| 403.03 | Blank |
| 403.04 | Typical City C & G Divided Street Connection |
| 403.05 | Typical City C & G Street Connection to City or NCDOT Shoulder Section |
| 403.06 403.07 | Intersection Sight Distance Diagram (Intersection of 2 City Streets) Blank |
| 403.08 | Blank |
| 403.09 | Recommended Treatment for Turn Lanes (2 Sheets) |
| 404.01 | Residential Driveway Connection (2 Sheets) |
| 404.02 | Commercial Driveway Connection |
| 404.03 | Typical Concrete Sidewalk and Expansion Joint Detail |
| 404.04 | Tree Well Opening in Facedown Sidewalk |
| 405.01 | Typical Curb Ramp – Type 1 (2 Sheets) |
| 405.02 | Directional Curb Ramps Type I |
| 405.03 | Directional Curb Ramps Type IA |
| 405.04 | Directional Curb Ramps Types IB |

DEQ3

North Carolina Department of Environmental Quality Division of Water Infrastructure Fund Transfer Certification

(Not needed for CDBG-I only projects)

(revised February 2022)

§ 159G-37(b) requires that all local governments applying for funding from the Clean Water State Revolving Fund, the Wastewater Reserve, the Drinking Water State Revolving Fund, the Drinking Water Reserve, or the Viable Utility Reserve for water or wastewater projects certify that no funds received from water or wastewater utility operations have been transferred to the local government's general fund for the purpose of supplementing the resources of the general fund since July 1, 2014. The prohibition contained in § 159G-37(b) shall not be interpreted to include payments made to the local government to reimburse the general fund for expenses paid from that fund that are reasonably allocable to the regular and ongoing operations of the utility, including, but not limited to, rent and shared facility costs, engineering and design work, plan review, and shared personnel costs. **Note:** A payment in lieu of taxes (PILOT) is not exempt from this certification unless the PILOT is calculated to reimburse for these specific expenses.

| Applicant's Certification: | |

CITY OF WILSON WATER SCHEDULE

1.0 AVAILABILITY:

1.1 This schedule is available to all domestic, commercial and industrial water services, subject to all City regulations and policies including those contained in Chapter 21 and 32 of the City Code and under the various applicable provisions contained hereunder.

2.0 APPLICABILITY:

2.1 This schedule is applicable to all water supplied to customer premises at one point of delivery through one water meter.

3.0 TYPE OF SERVICE:

3.1 The volume of water flow and pressure at the point of delivery, location of the meter, minimum specifications for connections and all other technical requirements shall be in accordance with the City's practices and procedures.

4.0 INSIDE CITY LIMITS:

4.1 Inside Rate Schedule

| 0 | - | 50 ccf | a | \$ 3.91 Per 100 cf |
|------|---|------------|----------|--------------------|
| 51 | - | 10,000 ccf | a | \$ 3.50 Per 100 cf |
| Over | | 10,000 ccf | a | \$ 2.82 Per 100 cf |

4.2 Inside Minimum Charges

| Meter Size | Cost Per Month |
|---------------|--------------------|
| 5/8, 3/4 or 1 | \$12.00 Per Month |
| 1 & ½ | \$ 22.08 Per Month |
| 2 | \$ 34.19 Per Month |
| 3 | \$ 62.39 Per Month |
| 4 | \$102.72 Per Month |
| 6 | \$203.52 Per Month |
| 8 | \$324.47 Per Month |
| 10 | \$505.92 Per Month |

5.0 OUTSIDE CITY LIMITS:

An additional charge equal to one hundred percent (100%) of the inside rate schedule determined in Section 4.0 above shall be added to the monthly water charge for outside customers as an availability charge as follows:

5.1 Availability Rate Schedule (200% of Inside Rate Schedule)

| 0 | - | 50 ccf | \boldsymbol{a} | \$ 7.82 | Per 100 cf |
|------|---|------------|-----------------------------|---------|------------|
| 51 | - | 10,000 ccf | $\overline{\boldsymbol{a}}$ | \$ 7.00 | Per 100 cf |
| Over | | 10,000 ccf | (a) | \$ 5.64 | Per 100 cf |

| 51 | - | 10,000 ccf | @ | \$ 7.00 | Per 100 cf |
| Over | | 10,000 ccf | \mathbf{a} | \$ 5.64 | Per 100 cf |

CITY OF WILSON WASTEWATER RATE SCHEDULE

1.0 AVAILABILITY:

1.1 This schedule is available to all domestic, commercial and industrial sewer services, subject to all City regulations and policies including those contained in Chapter 31 and 32 of the City Code and under the various applicable provisions contained hereunder.

2.0 APPLICABILITY:

2.1 This schedule is applicable to all sewer collected from the customers premises whether or not the same is metered. All users shall participate in the Users Charge/Industrial Cost Recovery (UC/ICR) provisions as applicable, pursuant to federal regulation 40 CFR Sections 35.925-11, 35.925-12, 35.928, and Appendix B, and as approved by the United States Environmental Protection Agency.

3.0 TYPE OF SERVICE:

3.1 The volume of sewer flow, location of any meters, minimum specifications for connection, and all other technical requirements shall be in accordance with the City's practices and procedures.

4.0 SEWER RATE FOR BASIC SERVICE:

- 4.1 The sewer rental hereby imposed shall be a monthly charge based upon the volume of water supplied for the then current calendar month or such less period as may be covered by the water bill to such premises. The rate of charge shall be calculated at **ninety percent (90%)** of the water consumption by volume times \$ 5.40 per 100 cubic feet. Such rate of charge shall be subject to change by the City Council from time to time.
- 4.2 An additional charge equal to one hunderd percent (100%) of the monthly sewer rental determined in Section 4.1 above shall be added to the monthly charge for outside customers as an availability charge.

5.0 MONTHLY CAPACITY CHARGE:

5.1 In addition to the monthly sewer charge set forth in section 4.1 above, there shall also be assessed against every customer a monthly capacity charge based upon the size of each meter serving customer's premises. The monthly capacity charge until changed by City Council, shall be the monthly charge for sewer service and shall be as follows:

CITY OF WILSON WASTEWATER RATE SCHEDULE (Continued)

| Meter Size (Inside) | Capacity Charge (Inside) |
|---------------------|--|
| 5/8 | \$ 13.00 Per Month \$ 13.00 Per Month |
| 1 1/2 | \$ 13.00 Per Month \$ 24.00 Per Month |
| 2 | \$ 37.18 Per Month |
| 3 4 | \$ 67.95 Per Month \$111.90 Per Month |
| 6 8 | \$221.78 Per Month \$353.64 Per Month |
| 10 | \$551.43 Per Month |

An additional charge equal to one hundred percent (100%) of the monthly capacity charge determined above shall be added to the monthly capacity charge for outside customers as an availability charge, such that the monthly capacity charge for outside customers shall be as follows:

| Meter Size (Availability) | Capacity Charge (Availability) | | | |
|---------------------------|--------------------------------|--|--|--|
| 5/8 | \$ 26.00 Per Month | | | |
| 3/4 | \$ 26.00 Per Month | | | |
| 1 | \$ 26.00 Per Month | | | |
| 1 & ½ | \$ 48.00 Per Month | | | |
| 2 | \$ 74.36 Per Month | | | |
| 3 | \$135.90 Per Month | | | |
| 4 | \$223.80 Per Month | | | |
| 6 | \$443.56 Per Month | | | |
| 8 | \$707.28 Per Month | | | |
| 10 | \$1102.86 Per Month | | | |

6.0 MONTHLY SURCHARGE:

6.1 The monthly sewage charges described in Sections 4.1 and 5.1 above are the base volume and capacity charges for the discharge of domestic waste into the City's waste water treatment system. In addition to the charges set forth in Sections 4.1 and 5.1 above, all persons discharging industrial waste into the City sanitary sewer system shall be rendered a monthly bill as a surcharge representing the entire cost incurred by the City to treat all waste containing pollutants whose quantity or quality is in excess of the level normally found in domestic waste as set forth in Section 32-55 of the City Code. The monthly surcharges are as follows:

CITY OF WILSON

Eligibility for American Rescue Plan Act (ARPA) Grant Funding

ARPA grants are administered through the Viable Utility Reserve and the State Reserves. All local government utilities and non-profit water corporations are eligible recipients of ARPA grants for planning/study projects and construction projects. More funds are available for, and higher grant limits apply to, ARPA construction grants from the Viable Utility Reserve and for At-Risk Systems than for All Other Systems as described in the ARPA Administration Plan. See your eligibility below. ARPA funding is up to 100% grant and is not subject to the percentage limits of the Affordability Criteria for SRF Principal Forgiveness/SRP grant eligibility. ARPA funds are subject to availability and limits specified in the Administration Plan.

See the ARPA Administration Plan on the Division's website for more details.

Local government utility or non-profit water corporation is eligible for ARPA project construction grants for 'All Other Systems' (not Viable Utility Reserve or At-Risk Systems) and for planning/study grants from the State Reserves. Eligible for ARPA project construction grants for At-Risk Systems if project is primarily to connect residences in disadvantaged, underserved areas to the water/wastewater system.

Eligibility for State Revolving Fund (SRF) Principal Forgiveness and State Reserve Program Grants (not ARPA-funded)

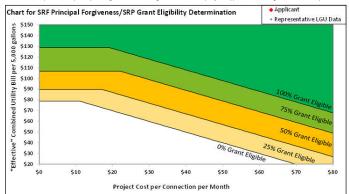

Eligibility is limited by the percentage below, funding request amount, caps on SRF principal forgiveness or SRP grants based on project type, and PF or grant availability.

Percentage of funding request amount eligible for SRF Principal Forgiveness or SRP grant:

You are not eligible for SRF Principal Forgiveness/SRP grant (non-ARPA). You are eligible for a 100% loan.

Limit not applicable to ARPA arants.

Graph is truncated: \$0-\$80 (X-axis), \$20-\$150 (Y-axis)

^{*} Representative LGU data plotted using Project Cost in Step 4, and project type selection (Water or Wastewater) in Step 5.
