

“City of Havelock
2020 Drainage System Maintenance”

Addendum 2
September 9, 2020

1. The quantities listed on the reference drawing do not match the scale listed on reference drawing 8. Are the quantities listed what Havelock is expecting to have removed or are both sides of the roads listed being cleaned and cleared?

The quantities listed are approximate total distances, to include both sides of the roads. Both sides of the roads are required to be cleaned/cleared. The scale should be disregarded.
