**1.3. SCOPE OF WORK**

The specifications detailed below are mandatory:

- 1.3.1.** The contract period shall be for the fiscal year FY25, which is July 1, 2024 or date of award if later, through June 30, 2025, with the option for up to four (4) extensions of one-year each if agreed to in writing with all involved parties.
- 1.3.2.** Prices quoted for the first twelve (12) months shall remain fixed. Increases in pricing shall only be permitted upon the renewal of the contract. Request for increases for renewals must be supported by

adequate written justification based on US Department of Labor, labor and consumer material index and price increase, and approved by the City.

- 1.3.3.** Since the necessity for chemicals is determined by water quality, the exact quantities of each chemical the City shall procure under this contract is impossible to ascertain in advance, however, based upon past procurements, approximate quantities have been provided. These approximate quantities are provided for informational purposes only and in no way are intended to represent actual minimum or maximum procurements.
- 1.3.4.** The successful vendor must have the capability to provide the chemicals to the City no later than 72 hours of receipt of a procurement request.
- 1.3.5. All pricing submitted must be FOB to the plant(s) specified for the individual chemical. Unless otherwise stated for the actual location, delivery times shall be during the hours 8:00 – 2:00 PM, Monday through Friday only. Smaller plants may exclude 12:00 – 1:00 for lunch time; please confirm with plant prior to actual delivery.**
- 1.3.6.** All items are to be certified to meet American Water Works Association (AWWA) standards for use in waterworks Rule ANSI/NSF Standard 60/61, latest editions.
- 1.3.7.** Bidders shall provide a current Safety Data Sheet (SDS) with each product.
- 1.3.8.** Chemicals shall be provided to the City as specified; known equivalents will be considered. If 'No Substitutes' has been specified, substitutes shall not be accepted. Additives such as antioxidants, plasticizers, flame retardants, colorants, extenders, UV absorbers, polymers, surfactants, desiccants, anti-caking agents, wetting agents, humectives, stabilizers, processing agents, etc. shall not be allowed unless the chemical is usually and customarily sold with the addition of the additive. Any and all additives must be listed on the Safety Data Sheet (SDS).
- 1.3.9.** Any 'equivalent' or 'comparable' chemical being bid must have completed required field testing and be on the approved chemical list prior May 23<sup>rd</sup> of the first year of the current 1-year term. Requests for testing and approval ratings are to be directed to the Director of Water and Wastewater. If a chemical needs to complete testing for equivalency, arrangements are to be made with the appropriate plant superintendent to schedule the required field testing. If the 'equivalent' or 'comparable' chemical is deemed acceptable by the facility prior to May 23, **ONLY THEN** will the chemical be added to the current bid. Any chemical field tested and deemed acceptable after May 23 will be added in the NEXT bid term. Chemicals that have been awarded in the past are considered approved. The **ONLY** exception to this will be that if the chemical was placed on the approved list after May 23, it can be considered for the replacement chemical in the event of a mid-term default by the awarded vendor.
- 1.3.10.** The City will issue monthly or 'as needed' orders against the purchase order(s) resulting from this bid. All purchase orders are subject to the terms and conditions of this contract and all invoices for payment must reference the purchase order number. In the event of conflict between a purchase order and this bid contract, the contract shall prevail.
- 1.3.11.** For security purposes, chemical companies shall provide chemical company's contact fax #, truck #, trailer #, driver's name, picture ID and estimated time of delivery within 48 hours prior to chemical company delivery.
- 1.3.12.** Since each of the treatment facilities have different delivery criteria specific to its location, delivery means (actual placement of containers and stacking of bags) will be determined by the personnel at the facility. Refer to the special delivery considerations are listed at the bottom of the chemical grid pricing sheet.
- 1.3.13.** Chemical delivery personnel are required to stay with and personally monitor their chemicals until unloading has been completed. Chemical delivery personnel are responsible for the cleanup of any chemical spills, except spills that may be the fault of the receiver.
- 1.3.14.** When delivering drum goods or dry goods, **all** shipping pallets must be suitable with 3<sup>3</sup>/<sub>4</sub>' clearance for unloading with electric forklift.

- 4.1.2.** The excuse of performance is of no greater scope and of no longer duration than is required by the Force Majeure;
- 4.1.3.** No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure;
- 4.1.4.** The non-performing party uses its best efforts to remedy its inability to perform. Economic hardship of the Provider will not constitute Force Majeure. The term of the Provider shall be extended by a period equal to that during which either party's performance is suspended under this Section.

Prior to termination, a Cure Notice will be issued by the City. The Notice will identify the problems and deadlines that need to be met to remedy the problems to avoid termination for default. If the Vendor does not respond with an acceptable action plan to remedy the default or commence to remedy the default within a period of five (5) business days (or such longer period as the City may authorize in writing) after the issuance of notice, the City may issue termination for cause.

## FY25 WATER TREATMENT CHEMICAL SPECIFICATIONS

The specifications for all chemicals shall be construed as minimum standards acceptable. Where brand names are mentioned the term "or approved equal or better" shall apply unless "NO SUBSTITUTIONS" is specified. If you wish your product to be tested to be a viable substitution, you must contact the plant superintendent to arrange testing. A simple jar test may rule out some products, but cannot secure approval. Testing can be lengthy and products not already in the final stages of test mode will be considered for the following fiscal year rather than the upcoming one.

Note: All chemicals are listed in these specifications; some chemicals may be excluded from the pricing grid due to contract extension or sole sourcing.

## SUPPLIER REGISTRATION

### Supplier Registration with the City of Griffin consists of the following:

*The City of Griffin now has online self-service registration, via Vendor Registry. In order to be registered as a City of Griffin supplier, you must access the registration via the City's site. This will give you the opportunity to keep your information accurate and current. It also permits unlimited NIGP commodity codes, allowing for notifications based on your specific business criteria and to link your website to your profile. In addition to the visibility to the City, this service will allow for other agencies in our area to have visibility of your company and it will allow you to have visibility of opportunities from other agencies in our area. There is no charge for this basic service, but you do have the option to expand your visibility to other areas for a small fee at any time.*

### TO REGISTER:

- ✓ Please visit our website at [www.cityofgriffin.com](http://www.cityofgriffin.com)
- ✓ Click on "Resources" at the top of the page
- ✓ Select "Register my business with the City"
- ✓ Complete your registration by following the instructions provided
  - Two documents (forms are available online under "Forms") will be required to be uploaded before your registration is complete. They are:
    - **Supplier Affidavit** – This document is also referred to as the E-Verify affidavit and has been updated to reflect new laws that have recently gone into effect. An E-Verify (EV) number is REQUIRED by the State of Georgia (OCGA § 13-10-91) if you provide labor or services to the City that is valued in excess of \$2,499.99. In addition to the EV number and signature, the affidavit must be notarized. If you are a sole proprietor or your company provides only products, simply initial the statement that applies to your situation and sign. There is no need to notarize the affidavit unless you provide your EV number.
    - **W-9** – This document supplies the Employer Identification Number (EIN) or the Social Security (SS) number of the supplier.

**These two forms must be submitted online if you are not currently registered (and compliant).**

**Note:** *If you are registered on Vendor Registry with another agency other than City of Griffin, you can 'piggyback' off of your existing profile to create a profile for Griffin. Contact our Procurement office or Vendor Registry for help in creating this new record.*
