

Bid #2017 Digital Sign

Questions & Answers

1. Do you have any specs on what type of digital sign you're looking for, pixel pitch, colors, ect? How are you looking to communicate with the sign, remote via modem, direct via fiber?

Answer: The pixel pitch will be around 10mm and colors in the sign. A remote via modem for a single computer in the office will control the sign.

2. Will this sign be a single sided or double sided sign?

Answer: Double sided with the name and logo on both sides.

3. If the entire sign measures 5ft x 8ft, how large do you want the header? Do you have any previous submitted drawings or additional specification for the digital message center?

Answer: The header will be 1 1/2 ft high to 2 ft., with the letters being at least 8 inches each line.
