

**ADDENDUM 2**  
**RFQP#FY1809-06**

DATED: October 16, 2017

FOR THE

**CMAR for the Construction of Fire Station #8**

ON BEHALF OF

THE OCONEE COUNTY BOARD OF COMMISSIONERS  
OCONEE COUNTY, GEORGIA

THIS ADDENDUM FORM IS PART OF THE RFQP DOCUMENTS ISSUED SEPTEMBER 28, 2017

---

The following question was submitted to Oconee County in reference to RFQP#FY1809-06: CMAR for the Construction of Fire Station #8 in an email correspondence on October 13, 2017.

Q1. Pursuant to Oconee County Addendum 1 CMAR-Construction of FS#8 RFQP#1809-06 the response to question number 6 indicates, "Oconee County plans to use the existing site of FS#8." Based on investigation, the current Fire Station #8 is located behind the QuikTrip at the intersection of The Oconee Connector and Daniels Bridge Road with a drive off of each road. The Conceptual Site Plan shows the location to be on Virgil Langford Road with an entrance/exit and an additional exit only fire truck exit, both off of Virgil Langford Road, which is a separate plat of land not within proximity of the existing fire station No. 8.

- a) Is the intent to have the entrance/exit and the additional exit only fire truck exit, both to be off of The Oconee Connector in lieu of Virgil Langford Road?
- b) Is demolition of the existing fire station building to be included in the preliminary estimate of site construction costs?

A1. According to Administration, a final site hasn't been finalized and any road should be viewed as conceptual only. Demolition of the existing fire station is not part of the request/scope.
