The image shows a white cylindrical transformer with a weathered top. Two white ceramic insulators are mounted on top, with red cables connected to them. On the side of the transformer, there are several electrical terminals. On the left, two black cables are connected to a metal terminal block. In the center, a single black cable is connected to a terminal. On the right, two black cables are connected to a terminal block, and a bundle of three black cables is connected to another terminal block. A yellow label with the number '167' is affixed to the side of the transformer. The background is a dark, metallic surface.
