

ADDENDUM NO. II

DATE: April 6, 2022
TO: All Potential Proposers
FROM: James McKeehan, Assistant Purchasing Agent, City of Knoxville
SUBJECT: Addendum No. II to RFP-2022 Creek Clean Up
PROPOSALS TO BE OPENED: April 14, 2022

The deadline for bids has been extended to Thursday April 14, 2022 at 11:00am Eastern Time. Updated information for viewing the bid opening virtually can be found on page two of this addendum.

This addendum is being published to provide clarification regarding the above referenced ITB. This addendum becomes a part of the contract documents and modifies the original specifications as follows:

Item 1: As part of the qualification/experience of firm criteria, (Section Nine, Item 2) please list any relevant qualifications and training of the firm and its employees including, but not limited to blood borne pathogens, Hazwoper, OSHA, hazardous waste disposal, PPE training.

Item 2: What all types of hazardous waste would we be in countering?

Response: Please refer to Appendix A beginning on page 30 of the RFP for the types of hazards anticipated.

Item 3: Do we also need to price biohazard waste as part of this also? That would include human waste, needles, body fluids, etc.

Response: Yes, the contractor should expect to encounter biohazardous waste including human waste and syringes/hypodermic needles. The proposal should detail how and where the contractor will dispose of biohazardous waste including sharps containers, and human waste found in containers or on the ground. The cost of disposal should be included in the proposed pricing and may be included outside of the proposed fee schedule. If disposal pricing outside of the fee schedule is included in the proposal all pricing should clearly state the price per defined container.

Item 4: Where do we need to put prices for equipment that could be used by the contractor?

Response: The cost of any equipment needed should be included in the proposed pricing on the fee schedule not as a separate equipment fee.

END OF ADDENDUM NO. II
