

## **ADDENDUM #2 – May 21, 2019**

### **Questions and Answers**

**Q: Is it the city's intention to just remove 4" of existing topsoil and tamp what is there, or is the plan to remove subgrade and haul in different soil to compact for the subgrade/base?**

**A:** The intent is to remove existing topsoil as necessary and compact the existing soil as a base layer. No additional base material is required.
