

City of Havelock
Airplane Painting/Restoration Project
Addendum 2
March 19, 2020

Pre-bid Meeting Questions Received

1. How is the plane to be prepped before painting? A chemical peel?

This is the first overcoat for this aircraft; power washing and sanding is all that is anticipated.

2. Can a containment area be formed around the plane with scaffolding to allow for open prep?

Scaffolding can be used; the area needs to be secured/roped off and clearly marked as a work area.

3. Markings on the plane are they to be painted on or decals?

All markings are to be painted on the airplane with the exception of the following decals:
Ace of spade card on both sides of the nose of the aircraft.
Danger Triangle with the words Ejection Seat and Canopy inside the triangle located just below the canopy.

4. If a lift is used and makes dents in the landscaping would the contractor be responsible for replacing the sod?

The site must be restored to its previous condition when work is completed.

5. Is pressure washing and painting the pedestal included in bid?

Pressure washing and painting of the pedestal was not included in original bid. An addition 1 option is being added to the bid form. Addition 1 will be the price for pressure washing and painting the pedestal.

Bid Sheet

Base Bid: _____

Addition 1 (price for optional
power washing and
painting of pedestal) _____

NC Sales Tax: _____
