

**City of Havelock**  
**2017 Paving Maintenance Bid**  
**Addendum 2**  
**May 3, 2017**

On page 19, last paragraph replace "For streets to be overlaid, the Contractor shall place and compact asphalt concrete in the bottom three (3) inches of the patch using either Type BH25.0B base course or Type I19.0B binder course." with "For streets that will not be overlaid, the Contractor shall place and compact asphalt concrete in the bottom three (3) inches of the patch using either Type BH25.0B base course or Type I19.0B binder course".

On page 20, first paragraph replace the sentence "For streets that will not be overlaid, the Contractor shall place and compact an aggregate base course for the full six (6) inches of the patch using ABC stone." with "For streets to be overlaid, the Contractor shall place and compact an aggregate base course for the full six (6) inches of the patch using ABC stone".
