

TO ALL HOLDERS OF CONTRACT DOCUMENTS FOR:

**City of Carlsbad  
EAST ROSE STREET SEWER IMPROVEMENTS**

**ADDENDUM NUMBER TWO**

November 16, 2021

This Addendum shall be incorporated into the Contract Documents for the above referenced project.

**Item No. 1 – Revised Bid Form**

The Bid Form in the contract Documents shall be replaced with the attached Bid Form. Some quantities were revised.

**Item No. 2 – Condition of Existing Manholes**

The existing manhole that is to be rehabilitated during the project does not appear to have any existing coatings. The existing manhole at the west end of E. Rose Street (Sta. 0+00) is constructed of brick and mortar. The existing manhole at the east end of E. Rose Street (approximately Sta. 14+34) does not need to be rehabilitated as indicated on sheet C-3. The attached bid form quantities have been updated to reflect this change.

**Item No. 3 – Acceptable Coating Substitution**

The Owner will only accept Quadex, LLC Coating system as a substitution for Raven 405 coating for the new manholes and rehabilitation of existing sewer manholes on this project. Contractor shall ensure the coating system is installed in accordance with the manufacturer recommendations.

**Item No. 4 – Grade Adjustment Ring Substitution**

Cretex PRO-RING is approved as a substitution for manhole grade adjustment rings. Contractor shall ensure the grade rings are installed in accordance with the manufacturer recommendations.

**Item No. 5 – Wastewater Flow Rates**

The estimated peak hour flow into the existing manhole at the west end of E. Rose Street (Sta. 0+00) is 531 gallons per minute. Contractor shall ensure bypass pumps can accommodate peak flow conditions. Contractor shall submit a bypass pumping plan, including bypass pump curves, to Engineer for approval prior to commencement of the project. The Owner believes that bypass pumping will not be required for the rehabilitation, but the bypass pumping item will be used in the event that the work cannot be completed without bypass pumping. The Owner intends to work with the Contractor to avoid bypass pumping.

This Addendum constitutes clarifications, changes, additions, modifications and/or deletions to the Contract Documents. All provisions of the Contract Documents not affected by this Addendum shall remain in full force. This Addendum is hereby made a part of the Contract Documents to the same extent as those provisions contained in the original Contract Documents and previous Addenda, if any. Receipt of this Addendum shall be acknowledged on the Bid Form.
