

Bid #4947 Aftermarket Auto Parts
Question & Answer

1. We reviewed the bid page and we are looking for some clarification on the percentage “discount column.”

Only two of the six categories have manufacturer’s list prices (Wix and Gates). I want you to be able to make an “apples to apples” comparison on the bid comparisons and am looking for guidance on what to base the discount on for the other categories which do not carry manufacturer list prices.

Answer: The discount is to be based on percentage off cash price, not MSRP price.
