

Spartanburg School District 2
RFQ1903 Fitness Trail Paving at Oakland Elementary

ADDENDUM 1

August 7, 2018

This Addendum #1 is being released to make the following changes to the bid specifications.

1. It is the contractor's responsibility to ensure that the trail drains sufficiently.
2. No dirt will be carried off site. The site will be balanced and any depressions filled in with topsoil.
3. The area to be covered is under 0.50 acres and will not require permitting.
4. Contractor will be responsible for clearing the top of the existing dam. A bridge will be constructed over the overflow portion – no paving will be needed over this area.
5. Grass seed will be sown where area is disturbed – dirt and seeding will be to the edge of pavement.
6. Crusher run stone will be used.
7. Asphalt on trail path is to be 2" compacted. Compaction testing will not be required.
8. The flags on the marked areas are the middle point of the path. The path should extend 3 feet on either side.
9. The trail can meander rather than having straight lines.
10. The small teardrop loop closest to the entrance of the school should have a 10-12 foot radial meeting point to allow room for entry and exit.
11. At the top of the hill area to be graded, there should be a 5ftx8ft concrete pad for ADA compliance. The pad should have concrete curbing in front to prevent a wheelchair from rolling down the hill.
12. After the pre-bid, it was determined that there will be an alternate bid. The base bid will include the entire project as discussed at the pre-bid. The alternate bid will only include the large loop portion of the trail, the ADA pad and the grading for the amphitheater and will eliminate the trail over the dam and the small teardrop loop. Please see revised drawings and bid proposal sheet.
13. The pre-bid sign in sheet of all vendors present is attached.
