

City of LaGrange, Georgia
Campbell Street Water Tank Exterior Rehabilitation
ADDENDUM
Atkins Project No. 100046763

ADDENDUM NO. One

OWNER'S NAME: City of LaGrange, Georgia

PROJECT NAME: Campbell Street Water Tank Exterior Rehabilitation

BID DATE: October 27, 2015, 11:00 AM (Local Time)

DATE ISSUED: October 20, 2015

CONTRACTOR ACTION

1. Acknowledge receipt of this addendum by writing in "Addendum No. 1" on page 00300-1 of your proposal.
2. Remove Section 09850 "OWNER'S NAME AND LOGO" and replace it with Section 09850 "OWNER'S NAME AND LOGO" *Addendum 01* provided. (3- Pages)

Approved by:

Atkins North America

SECTION 09850
OWNER'S NAME AND LOGO
Addendum 01

Part - 1 General

Provide all labor, materials, tools, and miscellaneous other items necessary to paint the Owner's name and logo complete at two locations on the Campbell Street 1MG Tank and two locations on the Tower Street 2MG Tank as directed by the Owner. **Logos shall be proportionally sized to the scale and configuration of each individual tank bowl.**

Part - 2 Product

2.1 Logo and Fonts

Tank Logo must meet the City of LaGrange requirements listed following:

The logo **MUST** be used exactly as designed and as it appears on this logo sheet.

LOGO. The logo must appear **in its entirety**. No abbreviation, substitution or variation is acceptable.

LOGO STAGING. When using the logo in your layout, allow for proper staging of the 'LaGRANGE GEORGIA' in relationship to all other art and/or type elements.

2.2 Point of View

The logo must be entirely visible from a single view point. If there are two logos with different viewpoints the different logos may not overlap. The logo is to be used exactly as designed and as it appears on the logo sheet. The contractor will assist the Owner in determining the location and size of the logo by outlining the proposed size and locations for the logo in masking tape on the tank bowl.

2.3 Colors

The lettering "LaGrange Georgia" shall be Pantone 424 C.
The inner portion of the red circle shall be Pantone 485 C.
The outer portion of the red circle shall be Pantone 1795 C.

2.4 Logo File Availability

The logo is available as: an Autocad .dwg file, and an Adobe Illustrator .ai file. Both files may be scaled accurately.

2.5 Paint

Paint product shall be an approved compatible fluoropolymer coating; Tnemc Hydro flon or Induron PermaGloss. All paint shall be from a single manufacturer unless a substitution is approved by the Engineer.

Part - 3 Execution

3.1 Apply logo only as indicated on the plans or as directed by a representative of the Owner.

3.2 Job Conditions

Apply coatings only under the following prevailing conditions:

The air and surface temperatures are not below 40 F. or above 120 F.
Relative humidity is not above 85 percent and the surface temperature is at least 5 degrees Fahrenheit above the dew point.

Protect all surfaces not to be coated. Follow manufacturer's recommendations regarding application if more stringent than listed above.

The tank must be completely drained for all painting and curing of paint. The tank may be filled only with Engineer's prior permission.

3.3 Surface Preparation

The surface shall be wiped clean with a soft rag sufficiently to remove all dust, moisture, and other deleterious materials.

3.4 Mixing and Thinning

Materials shall be mixed, thinned and applied according to the manufacturer's latest printed instructions.

3.5 Paint Application

Apply one full coat of first coat, smooth, uniform in thickness and color, free of brush marks, blasting sand, laps, runs, bubbles, dry spray, overspray and skipped or missed areas. Background color shall not show through the logo.
Apply paint free of drips and runs.

3.6 Correction of Errors

Areas requiring correction shall be over coated to the extent that no shadows are visible.

3.8 Logo Sample

Logo shall be as indicated following. Scale to match tank size and orientation. The border shown in the image that follows is not required. **Note printers and copiers may not accurately represent the colors specified.**
