

**Spartanburg School District 2**  
**RFB1822 iPad Mini Buyback**

**ADDENDUM 1**

**May 11, 2018**

This Addendum #1 is being released to address questions that were submitted:

- 1) Of the 8,000 devices, how many devices were taken home by students and how many were kept at home?  
**5400 devices were taken home.**
- 2) What condition will the devices be in when picked up? **The devices will be able to be powered on. Cracked screens have been repaired through April 27, 2018. Any screens cracked since then are not being repaired. On an average month, we have 50 screen repairs.**
- 3) Is it possible to evaluate some iPads before bid submission? **The devices are still being used by students and are not all available for evaluation. If you would like to visit our schools and look at some prior to the bid submission, please contact us.**
- 4) The charging blacks and cords we collect will be sent back. We do not expect to have all 8,000 cords, but we expect to have at least half of them. We still are requiring no deduction for missing blocks or cords.
