SUBJECT: Addendum 1 to Quote Request 39405 – Supply and Place Sod on L74N and L74W Levees

As a result of a recent inquiry, the following clarification/change is provided for your information. Please make all appropriate changes to your quote documents.

1. The time and date for the submittal of responses remains the same: **2:00 p.m. Tuesday, March 12, 2024.**
2. **Question:** Is there any way to add rock to these inline at the weirs? Fully loaded and possibly empty tractor trailer will not be able to travel past these, or do we price for additional equipment and labor to get sod to the installed location?

Answer: The district is currently regrading this levee and intends to reslope the access to and from the weirs such that a tractor trailer can travel across. No additional equipment or labor should be necessary.

NOTE: Please acknowledge receipt of this Addendum in your submittal.
