### ADDENDUM NO. 4

DATE: July 31, 2018  
PROJECT: ITB 0318-2210  
NOVA ROAD MEDIAN LANDSCAPING

OPENING DATE: August 9, 2018

This addendum is hereby incorporated into the Bid Documents for the project referenced above. The following items are clarifications, corrections, additions, deletions and/or revisions to and shall take precedence over the original documents. Additions are indicated by underlining, deletions are indicated by ~~striketrough~~.

1. Question: Note 8 on page LD-4 of plans says if we the contractor break, damage existing irrigation we are responsible for repairs. And the in the new plant beds we are to make sure there is proper coverage of new planting. Question: Is the existing system already in operation? And what type of heads are existing as well as to spacing? Some information from the City letting the contractor know what type of irrigation exist than just saying repair and make adjustments as needed at a cost to be included in plant, is easy to say. This does not help with bidding. Can the City clarify that all is operational at least?

**Answer: The existing system is currently shut off but it has been tested and found to be fully operational. The existing heads are Toro Pop-Up Sprayers and they are about 15' apart.**

2. All other terms and conditions remain the same.

The Bidder shall acknowledge receipt of this addendum on the Bid Proposal Form.

The City of Daytona Beach

Kirk Zimmerman, CPPB
