Traffic Signal UPS Battery Backup Systems

2/5/2024

Inquiry submitted by	Inquiry	Response	Response From
Saif Habib of Technology Interantional, Inc.	We would need to know how many watts will be required for the UPS before quoting, so that we can quote the appropriate UPS.	Each traffic signal/intersection is different and we do not have that specific information. It is the responsibility of the Proposers to acquaint themselves with the site, through a site visit, to determine what is needed.	Tim Tokarz Seperintendent Electrical, Forestry & Streets
Saif Habib of Technology Interantional, Inc.	We need any referenced or preferred brand name and model # for this project.	There is no preferences as to the brand or model number.	Tim Tokarz Seperintendent Electrical, Forestry & Streets
