

ITB #19-003 CRA Office Renovations

Addendum 1 – Questions/Answers

QUESTION:

The spec. sheet calls for ceramic tile in both bathrooms. The subfloor is wood now, so we would have to put down concrete backer board first, then tile. The lobby, hall, and back room call for Coretec Plus, that is 100% waterproof. I would like to run the Coretec Plus in both bathrooms to eliminate the tripping hazard of the transition strips that would have to be there between the all and the tile over backer board in the baths. Coretec Plus will also eliminate grout lines for easy clean up. Please let me know what you think....

ANSWER:

The project should be bid per the specifications given. The CRA can then discuss any suggested changes with the contractor once the project has been awarded. If the CRA decides to go with any suggested changes, they can do so with a change order at that point.

ACKNOWLEDGEMENT

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid or proposal response in the space provided on the Submittal Checklist included in the original solicitation document. Failure to do so may subject the bidder to disqualification.
