# Art Requirements

Award Company of America accepts art in the following ways: email, mail, and CD-ROM. Utilizing email is a quick and more efficient means of transferring your artwork to us. All email must include your name, organization's name and phone number. Please review the Art Requirements below before proceeding. Utilizing this information will save you time and expedite production of your order.

## Art Requirements

Please supply clean, sharp, high-resolution, black & white line art! PMT or Laserprints (300 DPI or higher) to size are preferred. Avoid half-toned, very detailed "reverse" or very small artwork, which tends to fill-in.

## E-Mail

E-Mail art should be sent to [art@awardcompany.com](mailto:art@awardcompany.com)

- \* Please include a copy of imprint with actual order! (Files may be corrupted during transmission, resulting in incomplete image. Copies of image allow us to compare for accuracy).
- \* Include organization's name, contact name and phone number in message.
- \* All graphics must be sent as EPS (converted to curves), PDF, or TIFF formats. All files must have a format extension.
- \* Where possible, convert all fonts to paths or curves. (Text converted to paths can no longer be edited as text.)
- \* Internet graphics (GIF, JPEG, BMP) are usually of unacceptable quality and will not give a clear reproduction.
- \* We cannot accept photographs as art. All artwork must be black & white line art.

## Fax

- \* We cannot accept faxed artwork, as the quality tends to be poor.

Note: Please include your fax number on any order requiring a paper proof!

This system is designed to assist you in verifying that your artwork has been prepared to meet the proper art requirements. However, it is not a guarantee that your art is acceptable. For example, saving a .gif as .eps does not convert your art to an acceptable .eps format, it essentially renames it. If we have any issue with art that you provide, we will contact you.

## Art Requirements

Award Company of America accepts art in the following ways: email, mail, and CD-ROM. Utilizing email is a quick and more efficient means of transferring your artwork to us. All email must include your name, organization's name and phone number. Please review the Art Requirements below before proceeding. Utilizing this information will save you time and expedite production of your order.

### Art Requirements

Please supply clean, sharp, high-resolution, black & white line art! PMT or Laserprints (300 DPI or higher) to size are preferred. Avoid half-toned, very detailed "reverse" or very small artwork, which tends to fill-in.

### E-Mail

E-Mail art should be sent to [art@awardcompany.com](mailto:art@awardcompany.com)

- \* Please include a copy of imprint with actual order! (Files may be corrupted during transmission, resulting in incomplete image. Copies of image allow us to compare for accuracy).
- \* Include organization's name, contact name and phone number in message.
- \* All graphics must be sent as EPS (converted to curves), PDF, or TIFF formats. All files must have a format extension.
- \* Where possible, convert all fonts to paths or curves. (Text converted to paths can no longer be edited as text.)
- \* Internet graphics (GIF, JPEG, BMP) are usually of unacceptable quality and will not give a clear reproduction.
- \* We cannot accept photographs as art. All artwork must be black & white line art.

### Fax

- \* We cannot accept faxed artwork, as the quality tends to be poor.

Note: Please include your fax number on any order requiring a paper proof!

This system is designed to assist you in verifying that your artwork has been prepared to meet the proper art requirements. However, it is not a guarantee that your art is acceptable. For example, saving a .gif as .eps does not convert your art to an acceptable .eps format, it essentially renames it. If we have any issue with art that you provide, we will contact you.
