

“City of Havelock
Lee Drive Culvert Project”

Addendum 2

April 27, 2023

Change to Bid

Bids are required to have a 5% bid bond attached at bid submission.

Questions Received

1. Are there any utilities in the area of the excavation and new installation of box culvert. Such as water main and a sewer line. It does not show on the plans the location of utilities. If there are any utilities will they be relocated at the cost of the city or the contractor? This is only of concern if the area of separation between the new box culvert/rock bed do not meet standards?

The County waterline was recently relocated out of the project area. The City does not anticipate any further conflicts, however if such arise it will be the responsibility of the contractor.

2. Another question is will the city owned property by this project be available as a lay down yard?

The City lot can be utilized as a lay down yard as long as the railroad access and crossing is not impeded.
