## RADIOLOGICAL SERVICE PROPOSAL

Tech Care X-Ray is a digital, mobile radiological service company in business since 1989 and **reclassified in 2013 as a minority/woman owned business**. Over the years we have developed an outstanding reputation for excellence in our field. We currently provide mobile radiological services to over 300 facilities in the southeast and central United States. Tech Care X-ray currently provides radiological services in the field of x-ray, EKG, ultrasound and mammography for Department of Corrections, Federal Facilities, numerous County Jails, Probation Detention Centers, Youth Detention Centers, private Medical Facilities, Health Departments and National Guard sites throughout the states of Florida, Georgia, Alabama, Indiana, Illinois and Maryland.

Our current goal is to continue to expand our digital services and as a result, we are offering this updated proposal for services to: **ESCAMBIA COUNTY JAIL**

1. Tech Care provides onsite x-ray and EKG services, including production of interpretations at a rate of **\$42.00** per exam.
2. Tech Care provides onsite ultrasound services at a rate of **\$140.00** rate per study and **\$200.00** for echocardiograms (with color flow mapping) per study.
3. Tech Care provides all equipment, interpretation and personnel necessary to perform required services. We only use licensed, registered technologist, completely covered under our liability and workers compensation policies.
4. Tech Care employs stringent HIPAA compliance measures to ensure patient information is protected at every stage of the process.
5. Tech Care provides timely and efficient service by a local technician during the hours of 8:00am – 5:00pm, Monday through Friday based on a set schedule for services. *These hours may be modified depending upon volume and necessity.*
6. All exams are interpreted by Board Certified/Licensed Radiologists and results are electronically provided via our web application within 24 hours of the exam. Printed reports may also be faxed or emailed to the facility as requested.
7. Tech Care maintains all images and reports electronically for a period of 10 years (or the requirements of the state service was provided) and grants secured log in access to the facility to view and print reports as needed.

Thank you for your interest in Tech Care. We will gladly provide any other information that you may require or answer any questions you may have regarding this proposal. Feel free to contact us at your convenience at (850) 562-1656 or email [tstokes@techcarexray.com](mailto:tstokes@techcarexray.com)
