

Vendor Questions 3

1. I see our RB-28 in the Arlington County Construction Standards and Specifications (section 13130 10530-2) are noted as 6' with an intermediate arm rest however the Detail (sheet F14.6.1 of F14.10.3) shows 2 intermediate arm rests, yet Addendum 3 (C12 bus stop shelter and furnishings) identified the bench as 8'.
 - Please confirm if the bench is 6' or 8'
 - Confirm if 1 or 2 intermediate arm rests are desired
 - Quantity 5

Response: It shall be 6' long bench with 1 intermediate arm rest and quantity is 5.

2. The Arlington County Construction Standards and Specifications (section 13130 10530-2) indicate the need for S-42 receptacles with dome lid, decals and 3-hole mount
 - Please provide the quantity of S-42 receptacles with dome lid are required for trash and the quantity needed for recycle
 - Please provide the plan pages where the items can be found.

Response: The contractor does not need to furnish, only to relocate existing model S-42 receptacles with dome lid from existing transit station area to proposed transit station area. Therefore, those receptacles are not showing on the plan. This work shall be considered incidental to the Contract and therefore no separate payment shall be made.
