

“City of Havelock
Recreation Complex LED Sign”

Addendum 1
April 22, 2021

Questions Received

1. The base is 8' high, but what is the total height to be?

The total height will be a minimum of 15 feet. See next response.

2. The size of the top I.D cabinet and with or without LED lighting inside?

The I.D. cabinet will be the same width as the LED cabinet and not to exceed 5 feet in height without the LED lighting inside. See Attachment A.

3. Will #2 of General provisions apply to contractor as breaking up and replacement of asphalt is an additional factor that will be needed in the bid quote?

This will not apply to this project since the sign location is in a grassy area. No asphalt overlay is required.

4. Can you please advise installation location and quantity for the following bid?

Installation location is the grassy area on the south west side the intersection of NC Hwy 101 and Recreation Drive. 1 sign is required.

5. What is the distance from the signs location and the office to where it will be controlled from?

Approximately 800 feet.

6. Are there any obstructions in the line of site from the office to the sig location?

Some pine trees with minimal obstruction.

7. Would a Wireless Modem with its own IP Address be acceptable instead of the Antenna?
Communications would not be an issue and the software that is included is proprietary and secure.

No. see bid specs.
