**Questions and Answers to Bid# 305694:**

1. **Are the footages listed separately because they have height differences? Or are they only separated because of width?**

**They are separated because of various widths particulars in the Central Business District (CBD).**

2. **There are two items, and they are separated by width, the first being under five feet wide but up to two inches in height. The second item does not state a height, but states a width longer than five feet. Is there a reason they are separated by width? Should they be separated by height instead?**

**They are only separated by width. Height would remain at 2" for average of max grind for each segment of sidewalk no matter the width.**
