

Culvert Bid

Questions & Answers

1. Can you tell me if the Highway department purchases by the truck load or only as needed?

Answer: The County coordinates delivery loads with the vendor to meet the County's needs with all attempts made to keep loads substantial.

2. Can I get a copy of last year's bid numbers for the bid?

Answer: The current prices are on pages 2 -3.

3. Can you explain also how the public use works? I see the customers pay the supplier directly. Does this mean that you stock this on your sight?

Answer: The County does keep stock on sight. However, requests from the public may not be able to be filled with what is on hand. Here is a summary of the process:

- Customer calls ACHD to put in a request for culvert.
- ACHD sends out foreman to appraise situation and the size of needed culvert, informs customer of cost.
- Customer delivers a check to ACHD. Check is made directly to the culvert company. Must be a cashier check or money order.
- ACHD orders culvert and culvert company delivers to ACHD. Culvert company picks up customer's payment upon delivery. Payment will accompany work order to identify the customer. Request may be filled from existing stock by the ACHD but an order to replace stock will still be made and paid directly from the customer.
- ACHD delivers culvert to customer and installs it, free of charge.
