In order to cancel a permit where the work will not be taking place, the following must be submitted.

- Letter from the contractor or permit holder requesting permit cancellation and stating no work has been performed. The letter must include the permit number, job address, reasons for cancellation and a contact name and telephone number. If the contractor is no longer available or unwilling to submit the letter, **the request can be made by the property owner**. If the permit is valid at the time of request for cancellation and the permit holder is not submitting the request, then the property owner will be required to complete a hold harmless letter. Please note that in cases where a hold harmless letter is required, there will be a 10 working day waiting period prior to cancellation. Additionally, the department will notify all interested parties (original permit holders and all subsidiary permit holders) of the cancellation request.

- Job set of plans (if applicable)

Following the receipt of your letter, the department will verify that no work was performed. If the department determines no work was performed, the permit will be cancelled. Following the performance of the inspection, the permit will be cancelled.

If the contractor is no longer available or unwilling to submit the letter, the request can be made by the **property owner**. The owner of the property will need to submit a Hold Harmless Letter Form. The Hold Harmless Letter needs to be signed by the owner of the property and in cases where the change is for a subsidiary permit, then by the general contractor as well. The signatures must be notarized.

The Hold Harmless Letter and the application from the new contractor must be submitted to the Building Department. There will be a 10 working day waiting period for the change of contractor to become effective. Please refer to the Building Department Fee Schedule for applicable fees.
