2023 Watermain Replacement and Resurfacing Project

1/15/2024

Inquiry submitted by	Inquiry	Response	Response From
Anthony Bucaro of Trine Construction Corp	I was looking to see if the Village would waive the IDOT Pre-Qual requirement for the above referenced project?	Bidders do not need to be IDOT Prequalified, but they do need to submit an Affidavit of Availability, BC 57, to the Village per the specifications. Submission of the BC 57 to IDOT is unnecessary.	Kai T Liu Village Engineer Department of Community Development
Ken Jones of Tiles In Style	Could you please let us know is IDOT prequalification required?	This project is not IDOT prequalified, however, it requires that all contractors and subs adhere to HUD requirements.	Kai T Liu Village Engineer Department of Community Development
