

RE: Addendum #4 – Mary Wright Culture Wall

Please see the following question received and response given

Question: In order to match the existing joint installed pavers we will need a concrete base for the new pavers. Do you want us to price as drawings show now with no concrete base or add with concrete base for new pavers for this base bid?

Response: Price as drawings show now for base bid. Pricing for concrete base may be included as an alternate for the city's consideration.
