Street Tree Mulching Contract Specifications

Background

The City of Chattanooga wishes to contract with a professional landscaping firm to inspect and add mulch to approximately 2,400 tree pits in the Central Business District (CBD) of downtown Chattanooga. The number of older trees in tree wells, trees growing in the rights-of-way, and newly planted streetscapes trees has greatly expanded in the last ten years and the limited capacity of city crews does not allow for adequate inspection and maintenance of these pits. The City Forester estimates that there are approximately 2,400 trees within the CBD located in these planting strips, tree wells, and medians. The exact number is somewhat elusive as new construction such as occurring with the Highway 27 corridor has resulted in the loss of trees but new streetscapes plantings have added to the number. The 2,400 tree estimate is based on a 2009 survey which is located on the City's Geographical Information Systems (GIS).

Execution

Contractor shall furnish all labor, materials, tools, equipment, vehicles and other services necessary to ensure that each tree has the appropriate amount of mulch in terms of area around the base of the tree and the depth of the mulch.

CONTRACTOR shall conduct inspections and apply appropriate mulch amounts, if any, twice annually beginning on April 1 and October 1.

CONTRACTOR shall inspect each pit to ensure that the quality of mulch meets contract requirements in terms of content (fresh shredded hardwood bark) and appropriate depth (three inches). Those pits that meet these requirements will not need to be serviced.

CONTRACTOR shall inspect each tree within the CBD to determine how much new mulch to add. The requirements for each category of planting pit environment is shown below:

1. 4' x 8' tree pit with entire pit open. Apply mulch to entire pit.
2. 4' x 8' tree pit with only a 4' x 4' opening. Apply mulch to entire opening.
3. 5' x 5' tree pit with entire pit open. Apply mulch to entire pit.
4. 4' x 16' or longer pit with entire pit open. Apply mulch to entire opening.
5. Median with a continuous grassy surface. Apply mulch outwards from the trunk using a radius of two (2) feet.

CONTRACTOR shall apply mulch to a depth of three (3) inches using commercially prepared shredded hardwood bark mulch. Mulch shall be applied in such a manner as to not touch the trunk of the tree.

CONTRACTOR shall remove existing mulch if the depth of existing mulch exceeds three (3) inches.

CONTRACTOR shall take necessary precautions for the safety of its employees, and shall comply with applicable provisions of the Occupational Safety and Health Act and the Manual of Uniform Traffic Control Devices (MUTCD).

CONTRACTOR represents that it holds all applicable permits and licenses required for the performance of the Services.

CONTRACTOR shall provide CUSTOMER with a certificate of insurance upon request.

Chapter No. 817 (HB0261/SB0377). "Iran Divestment Act" enacted.
