Arlington County DES Engineering Special Conditions:

Special Conditions. Item Number 4. Special Contractor/Subcontractor Qualifications is hereby replaced in its entirety with the following:

4. SPECIAL CONTRACTOR/SUBCONTRACTOR QUALIFICATIONS

The Contractor shall have three (3) years of experience conducting public works infrastructure, streetscape, and bioretention projects. The experience shall be work of similar size and scope, construction, re-construction, and maintenance.

The Contractor obtained project experience shall consist of the following:

- State and County streets, asphalt paving full depth, milling and overlay
- Curb, gutter, concrete sidewalk, driveways and walkways
- Storm sewer infrastructure, pipes and inlets
- Wet utilities including Watermain and appurtenances
- Gravity Retaining Walls
- Electrical conduits
- Streetscapes and related site
- Bioretention with associated items, infrastructure, soil, and vegetative components

The Contractor shall provide a complete list of projects completed within the last five (5) years with reference contact information for each project for Bidder qualification verification. Failure to qualify according to the foregoing requirements will result in bid rejection by the Arlington County Purchasing Office.

The following clarifications are made as a result of vendor inquiries:

1. The bid documents request "Special Contractor/Sub-Contractor Qualification" (pg. 94-95) which ask for three continuous years of on-call services. This bid does not indicate on-call services and it contradicts the bid as a lump sum project. Can you clarify if this requirement is needed in addition to the qualification requirements listed on pages 8-9?

Answer: No, the requirement of three continuous years of on-call services are not needed in addition to the qualification requirements listed on pages 8-9.

The balance of the solicitation remains unchanged.

Arlington County, Virginia
