 - f. The primary checking account.
 - g. Our depository account and transit Account for Fare Box Collections.
 - h. Thirteen active wire transfer templates
10. Merchant Services - In August 2016 the City entered into a contractual agreement with SCGov to provide merchant services for the City. Under our current agreement the cost for credit card processing is passed on to the customer through a convenience fee. THE CITY PAYS NO FEES for credit card processing or equipment. **The City has no intentions on changing this process in the near future.** I mentioned the option in the RFP to allow bank to share whatever information they chose for future reference. As I've discussed with the Bank that asked these questions we don't anticipate making a change. Therefore the remaining questions will not be answered since they aren't critical to the analysis of the Bank proposals.
11. The average deposit balance the City maintains is \$5,000,000 per month. This amount was maintained to offset fees and to maximize investment income using the State Local Government Pool. While the City has used the method the past couple years, this policy is subject to changed based on the best opportunity that would be advantageous to the City.
