ADDENDUM ONE

Solicitation: 2018-021-1 Jail Expansion Architectural & Engineering Services

Addendum Release Date: May 10, 2018

Question:

Can firms shortlisted in the selection process reach out to county departments not directly involved in the project to ask general questions? (ie county utilities) No contact would be made with Sheriff's Office employees, county commissioners or county administration personnel.

Answer:

The County believes that the controlling information access during the selection process will best serve all participants and therefore does not wish for any contact with other Agencies related directly or indirectly to this project. The is to ensure that accurate and complete information is available to all participants. However, any public information located on the County's web site may be used. Therefore, any specific information deemed important by the proposing firms that is not readily available should be requested through the County's RFP question submission process for the County's consideration.
