ADDENDUM NO. 3

Date Issued: June 10, 2022

Bid Title: Air Purification Units for Circuit Courts

Re: ITB#12705222202 (MR)

This addendum is issued to answer questions as of 06/10/2022 for the Air Purification Bid and shall be considered as part of the contract subject to all the general conditions thereof, the same as if attached to and included in the original specifications. All items included in the addendum shall be covered in the Bid as submitted by the Contractor.

1. **Question** – In the General Terms & Conditions section, number 34 discusses Buy America Requirements. Will Sullivan County strictly award this opportunity only to vendors who supply air purification units manufactured with American-made materials?

Answer: To clarify previous answer in Addendum 2. This purchase is being made with Federal Grant funds, therefore, Sullivan County is required to comply with all Federal Regulations which includes 2 CFR§ 200.322 Domestic Preferences for Procurements:

2 CFR§ 200.322 Domestic Preferences for Procurements

- (a) As appropriate and to the extent consistent with law, the non-federal entity should, to the greatest extent practicable under a Federal Award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (Including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or product under this award.
- (b) For purposes of this section:

- (1) “Produced in the United States” means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
- (2) “Manufactured products” means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.
