Questions and Answers

Proposal No: 1920-10-29-01

1. On the bid price sheet it doesn't specify who is actually charged for the different types of tows. For example we assume the fleet maintenance tows will be charged to the City of Spartanburg, but the derelict vehicles on private property and right of way tows, would they fall to the responsibility of the vehicle owner(s) or would the city be charged for these as well?

2. Could you explain to me what would be reconsidered exactly for the "right of way" tows

1. Derelict vehicle tows on private property will be at the owners expense.

Fleet maintenance tows will be billed to the city.

Right of way tows will be called in by the Police Department and at the owners expense. Right of ways are considered in the street or on the sidewalk or any public property.

All tows must be stored within the city limits.
