

Kendall County IL ITB for electronic Monitoring Services

1. The specifications request an RF device; however, it is our understanding that the county does not use this type of unit. Can you confirm you are looking for RF devices in addition to GPS.

Answer: Yes. The RF devices are currently used to supplement signals and prevent message gap errors when a participant has a home location that does not receive a GPS signal.

2. The specifications do not request a victim notification solution; please confirm that you do not require this solution.

Answer: Yes. Kendall County does use victim notification services and will continue to use them. This service should be included in the bid.

3. Were any other question submitted from other vendors?

Answer: No. As of 1:15pm on 2/23/21 these are the only questions that have been received.
