

PPE Questions
Posted: 06-29-2020

What is the time frame in which these items need to be delivered by? **We are hoping that we can have an award made quickly after the due date, and delivery within 2 weeks of Purchase Order being issued.**

Items 1 – 7 – FDA guidance is 60% + alcohol. 80% is liquid in most cases and gel is usually less than 80% alcohol. Would you consider liquid with 80% alcohol or gel with less than 80%? **Yes, we will consider this percentage.**

Items 1 – 7 – Most manufacturers have removed the 99.9% kill and don't guarantee it due to litigation. GoJo is the only manufacturer that has substantiated this claim and their product is very difficult to get right now. Would you reconsider this spec? **Please provide an acceptable replacement, with the specifications and we will review.**

Item 5 – 68oz is an odd size. Standard size is 64oz (1/2 gallon). Would you consider a 64oz? **Yes, we will consider, please provide the size you are able to quote.**

Item 6 & 7 - These are typically sizes for refills for dispenser. Is this for a dispenser? If so, what dispenser so that we can be sure what we quote will fit? **We do not have a dispenser, we are requesting that you quote one that will fit the size of the product.**

Item 8 – 11 – These sizes are very specific. What brand are they? Would you consider a brand that is comparable in size as each manufacturers is slightly different? **We will consider a brand that is an acceptable if you are able to quote, ensure the specifications are provided to review.**

Item 15 – Foam headbands don't come in ANSI Z787+ rated face shields. They would have to have a different more secure band to come with that rating. Which spec would you prefer we follow? **Please follow the specifications for the face shields.**

Item 16 – What is your definition/specifications of a surgical mask? Face mount masks, Nonwoven + Filter cotton, Protection class: KF99, 20g/m2 PP Green Spunbond, Filter Layer – 20 G/m2 Meltblown, 95% BFE, Inner layer ES Thermobonded Soft, Plastic and Wire, 3 mm latex-free round elastic earloop, with a 12 mm width, length 49 cm. (Or EQUIVALENT Brand).

Item 17 – Most N95s and KN95s are 95% BFE, not 99%. Would you consider one with 95%? **Yes we would consider this.**

Item 18 – Would you accept children's reusable masks? **Yes, please quote if possible**

Item 20 – Do they need to be medical grade? **That will limit options available. No, they do not need to be medical grade.**

Item 21 – 23 – Would you accept a 15 mil and 13" in length? **Yes, please quote and we will consider.**

Please advise the date, time and location for the "Mandatory Pre Bid Meeting". – **We will NOT have a Prebid Meeting for this bid.**
