(Reference: 2 CFR Part 200, Appendix II(C), 41 CFR Part 60-1)

TRADE RESTRICTION CERTIFICATION

By submission of an offer, the Offeror certifies that with respect to this solicitation and any resultant contract, the Offeror –

- 1) is not owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms as published by the Office of the United States Trade Representative (USTR);
- 2) has not knowingly entered into any contract or subcontract for this project with a person that is a citizen or national of a foreign country included on the list of countries that discriminate against U.S. firms as published by the USTR; and
- 3) has not entered into any subcontract for any product to be used on the Federal project that is produced in a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18 USC § 1001.

The Offeror/Contractor must provide immediate written notice to the Owner if the Offeror/Contractor learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. The Contractor must require subcontractors provide immediate written notice to the Contractor if at any time it learns that its certification was erroneous by reason of changed circumstances.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR § 30.17, no contract shall be awarded to an Offeror or subcontractor:

- 1) who is owned or controlled by one or more citizens or nationals of a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR; or
- 2) whose subcontractors are owned or controlled by one or more citizens or nationals of a foreign country on such USTR list; or
- 3) who incorporates in the public works project any product of a foreign country on such USTR list.

Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

The Offeror agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification without modification in all lower tier subcontracts. The Contractor may rely on the certification of a prospective subcontractor that it is not a firm from a foreign country included on the list of countries that discriminate against U.S. firms as published by USTR, unless the Offeror has knowledge that the certification is erroneous.

This certification is a material representation of fact upon which reliance was placed when making an award. If it is later determined that the Contractor or subcontractor knowingly rendered an erroneous certification, the Federal Aviation Administration (FAA) may direct through the Owner cancellation of the contract or subcontract for default at no cost to the Owner or the FAA.

CERTIFICATION OF OFFEROR/BIDDER REGARDING TAX DELINQUENCY AND FELONY CONVICTIONS

The applicant must complete the following two certification statements. The applicant must indicate its current status as it relates to tax delinquency and felony conviction by inserting a checkmark (✓) in the space following the applicable response. The applicant agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification in all lower tier subcontracts.

Certifications

- 1) The applicant represents that it is () is not () a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.
- 2) The applicant represents that it is () is not () a corporation that was convicted of a criminal violation under any Federal law within the preceding 24 months.

Note

If an applicant responds in the affirmative to either of the above representations, the applicant is ineligible to receive an award unless the Sponsor has received notification from the agency suspension and debarment official (SDO) that the SDO has considered suspension or debarment and determined that further action is not required to protect the Government's interests. The applicant therefore must provide information to the owner about its tax liability or conviction to the Owner, who will then notify the FAA Airports District Office, which will then notify the agency's SDO to facilitate completion of the required considerations before award decisions are made.

Term Definitions

Felony conviction: Felony conviction means a conviction within the preceding twenty four (24) months of a felony criminal violation under any Federal law and includes conviction of an offense defined in a section of the U.S. Code that specifically classifies the offense as a felony and conviction of an offense that is classified as a felony under 18 USC § 3559.

Tax Delinquency: A tax delinquency is any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

CERTIFICATION OF OFFEROR/BIDDER REGARDING DEBARMENT

By submitting a bid/proposal under this solicitation, the bidder or offeror certifies that neither it nor its principals are presently debarred or suspended by any Federal department or agency from participation in this transaction.

CERTIFICATION OF LOWER TIER CONTRACTORS REGARDING DEBARMENT

The successful bidder, by administering each lower tier subcontract that exceeds \$25,000 as a "covered transaction", must confirm each lower tier participant of a "covered transaction" under the project is not presently debarred or otherwise disqualified from participation in this federally assisted project. The successful bidder will accomplish this by:

1. Checking the System for Award Management at website: <http://www.sam.gov>.
2. Collecting a certification statement similar to the Certification of Offeror /Bidder Regarding Debarment, above.
3. Inserting a clause or condition in the covered transaction with the lower tier contract.

If the Federal Aviation Administration later determines that a lower tier participant failed to disclose to a higher tier participant that it was excluded or disqualified at the time it entered the covered transaction, the FAA may pursue any available remedies, including suspension and debarment of the non-compliant participant.

- (3) The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

(Reference: 31 USC § 1352 – Byrd Anti-Lobbying Amendment; 2 CFR part 200, Appendix II(I); 49 CFR part 20, Appendix A)

CERTIFICATE OF COMPLIANCE WITH “BUILD AMERICA BUY AMERICA ACT” (“BABA”) PROVISIONS

The Contractor is required to comply with the “Buy America Provision” found in Section 70914 of the Infrastructure Investments and Jobs Act, Pub. L. 117-58, Sections 70901-52 (the “Act”). The Act includes strict domestic source requirements for iron, steel, manufactured products, and construction materials used in EDA Public Works infrastructure projects.

The Infrastructure Investment and Jobs Act includes the Build America, Buy America Act (“BABA”). BABA was enacted to strengthen Made in America Laws and bolster America’s industrial base, protect national security, and support high-paying jobs. In keeping with this goal, Congress included strict domestic source requirements for iron, steel, manufactured products, and construction materials used in EDA Public Works projects for infrastructure. BABA requires that all iron, steel, manufactured products, and construction materials used in federal awards be made in America.

Construction materials include an article, material, or supply other than an item of primarily iron or steel: a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives that is or consists primarily of non-ferrous metals; plastic and polymer-based product (including polyvinylchloride and composite) building materials and polymers used in fiber optic cables; glass (including optic glass); lumber; drywall; fiber optic cable; optical fiber; or engineered wood.

Manufactured Products are products manufactured in the United States with the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.

Iron or steel products including articles, materials, or supplies that consist wholly or predominantly of iron or steel or a combination of both. Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components.

In accordance with Section 70914 of the Act, all iron, steel, manufactured products, and construction materials used in the Project must be produced in the United States and the Contractor shall include this requirement in all bid specifications, contracts, purchase orders, and other procurement documents for goods and materials used in the Project.

EDA may grant waivers to this requirement if it finds that at least one of the following conditions applies:

- Applying this subsection would be inconsistent with the public interest.
- Iron, steel, the relevant manufactured goods, or construction materials are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality.
- Inclusion of iron, steel, and manufactured goods produced in the United States will increase the overall project cost by more than 25%.

Specific procedures and documentation are required for each category of waiver. The Contractor will be required to provide required documentation to the Sponsor to support the type of waiver being requested within 7 calendar days of being selected as the responsive bidder. The failure to submit the required documentation within the specified timeframe is cause for a non-responsive determination and will require the Contractor to furnish a U.S. domestic product for any waiver request that the EDA rejects. If the EDA determines that it is necessary to waive this provision based on their findings, they shall publish in the Federal Register a detailed written justification as to why the provision is being waived.

This section of the law shall be applied in a manner consistent with United States obligations under international agreements.

To ensure compliance with the Buy America Provision, the Contractor will be required to submit the following information for each item that includes iron, steel; for each manufactured good; and construction materials incorporated into the Project:

1. Type and quantity of material (iron, steel, manufactured product, or construction material).
2. Name and phone number of the supplier of the product or material.
3. Name of the manufacturer of the product or material.
4. The city and state of production.

In addition, the Contractor shall include the following Buy America Contract Clause in all bid specifications, contracts, purchase orders, and other procurement documents for goods and materials used for the Project to require: (i) all iron, steel, manufactured products, and construction materials being purchased for the Project be produced in the United States, and (ii) all suppliers providing iron, steel, manufactured products, and construction materials for the Project to provide information related to the origin of these items to EDA upon request.

Buy America Contract Clause

The Contractor acknowledges to and for the benefit of Georgetown County (“Recipient”) and the Economic Development Administration (“EDA”) that it understands the goods and services under this Agreement are being funded with federal monies and have statutory requirements in Section 70914 of the Infrastructure Investments and Jobs Act (Pub. L. 117-58, sections 70901-52) commonly known as “Build America, Buy America” that require all of the iron and steel, manufactured products, and construction materials used in the Project to be produced in the United States (“Build America, Buy America Requirements”). The Build America, Buy America Requirements include all iron and steel, manufactured products, and construction materials provided by the Contractor pursuant to this Agreement. The Contractor hereby represents and warrants to and for the benefit of the Recipient and EDA (a) the Contractor has reviewed and understands the Build America, Buy America Requirements, (b) all of the iron and steel, manufactured products, and construction materials used in the project will be and/or have been produced in the United States in a manner that complies with the Build America, Buy America Requirements, unless a waiver of the requirements is approved, and (c) the Contractor will provide any further verified information, certification, or assurance of compliance with this paragraph, or information necessary to support a waiver of the Build America, Buy America Requirements, as may be requested by the Recipient or EDA. Notwithstanding any other provision of this Agreement, any failure in complying with this paragraph by the Contractor shall permit the Recipient or EDA to recover as damages against the Contractor any loss, expense, or cost (including without limitation attorney’s fees) incurred by the Recipient or EDA resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part, from EDA or any damages owed to the EDA by the Recipient). If the Contractor has no direct contractual privity with EDA, the Recipient and the Contractor agree that the EDA is a third-party beneficiary and neither this paragraph (nor any other provision of this Agreement necessary to give this paragraph force or effect) shall be amended or waived without the prior written consent of EDA.
