

Addendum 001
RFP 17-R0050
Landscaping Bathsheba Bowens, Futrell and Garden of Hope

PLEASE MAKE THE FOLLOWING CHANGES TO GROUNDS &
LANDSCAPE MAINTENANCE SPECIFICATIONS

I. MOWING, TRIMMING AND EDGING

AMEND the following paragraph:

- a. (change mowing height from “2-3 inches” to “3-4 inches”)

ADD the following paragraphs:

- c. At no time shall more than 1/3 of leaf height be removed in any one cutting (mowing). Should weather or other circumstances preclude maintaining the aforementioned schedule, the Contractor shall not attempt to ‘make-up’ by removing more than 1/3 of leaf height per week.
- d. “Scalping” of turf is unacceptable as this damage promotes weed growth. If such damage does occur the Contractor is expected to mitigate further damage to effected area.
- e. At no time shall Contractor leave behind clumps of grass cuttings on the turf so as to cause damage to the turf.

II. PESTICIDES

ADD the following statements between 1st and 2nd paragraphs

*[ONLY “Organic” materials/ingredients that are published on the OMRI™ **Products List** will be considered acceptable materials in order to meet the **pesticide** and **fertilizer** requirements of this contract. (OMRI **Products List** is available online and updated every 2 weeks).*

(Products that warrant they are exempt from EPA registration may be considered only with prior approval by the City.)]

[Pesticides labeled “Restricted Use” are PROHIBITED.]

A. Weed Control

Amend the following

- 1. (second sentence only... "All turf shall receive an appropriately timed Fall and Spring application of a pre-emergent herbicide to reduce winter/summer weeds.")**

END
