

## **ADDENDUM NO. 2**

DATE: May 7, 2021

TO: All Bidders

FROM: Penny Owens, Purchasing Agent

SUBJECT: Addendum No. 2 – Amherst Road Slope Stabilization Project

PROJECT NO.: 17H-R-0647

BIDS TO BE OPENED: **May 12, 2021, at 11:00 a.m. Eastern Time**

This addendum revises the specifications and responds to questions proposed by potential bidders. This addendum becomes a part of the Contract Documents and modifies the original specifications as noted.

### **Changes to the Contract Documents & Specifications:**

#### **KUB Waterline Work**

All work associated with KUB water must be performed by a KUB prequalified contractor.

#### **Sodding**

Item No. 28.10, Sodding shall be fescue.

### **Clarification of Contract Documents & Specifications:**

The following are responses to questions received from potential bidders:

#### **Questions**

**Question #1:** The plans state that soil excavated from railroad right-of-way cannot be hauled off and must be stockpiled. Does the same apply to trees, brush, and the old concrete bridge foundation to be removed from railroad right-of-way?

**Response:** No, these materials may be removed from the site to a local waste facility. Only soil excavated from railroad right-of-way will need to remain onsite.

**END OF ADDENDUM NO. 2**
