RFP 19-002 Registered Professional Archaeologist – Texas Historical Survey for Pugh Park

12/4/2018

ADDENDUM NO 1: Notice to Bidders

Clarification:

1. Is any part of the trail on property owned by entities other than the County?
TGC Response: No
2. Will you make available shapefiles or maps depicting ownership tract boundaries for land owned by the County within and adjacent to the survey area?
TGC Response: No
3. It appears that the Christoval ISD property is immediately adjacent to or overlaps the survey area. Does the County have written permission to conduct shovel testing on ISD property if delineation of archaeological sites extends onto their property?
TGC Response: No, but we can get it if needed.
4. The form provided with the RFP does not leave much space for outlining the scope of work for each project. Would I be able to include an additional page with a brief paragraph regarding our scope of work or am I limited to the space provided?
TGC Response: Additional information may be included with proposals for consideration.

Please include this signed addendum with your Response.

Sincerely,

Dustin Klein
