RE: Addendum No. 3, dated May 24, 2024

This Addendum forms a part of the Contract Documents and modifies the original Bidding Documents dated April 2024.

This Addendum consists of one (1) page and one (1) Supplemental Drawing.

#### CONTRACT DOCUMENTS AND SPECIFICATIONS

Add. 3.1 *Contractor Question:* Does the City have a laydown location for materials near the work area?

*Response:* The Griffin-Spalding County Land Bank Authority has agreed to allow the selected contractor to use the parcels at 435 W. College Street and 437 W. College Street as a laydown/storage area for the project. The parcels are approximately 0.10 mile west of the railroad track. Attached supplemental drawing SD-2 shows the location of the parcels in relation to the intersection of the railroad track and W. College Street, which is the location the contractor will use to access the underside of the bridge. The contractor is responsible for removal of vegetation from the laydown area to make it usable and for grassing and mulching the disturbed area upon completion of the project. The contractor is solely responsible for any items stored at this location during the course of the project.

Add. 3.2 *Modification:* Drawing SD-2 is attached to this addendum and becomes a part of the Contract Documents.
