

RFP Q&A for Posting 2019-610-2 – Computer Refresh

1. What is the current model of computer that your district is using and how closely do you want to maintain these existing models to the new ones requested.
 - a. High School 1:1 is a mix of Lenovo 11e 1st gen, 11e 3rd gen, and Lenovo N24.
 - b. Teacher machines are a mix of Lenovo L540, Lenovo L560, and Lenovo 11e Yoga 5th gen.
 - c. There is no requirement for consistency and we are open to view bids from all OEMs

2. Also regarding point 4 for proposal expiration date pricing having a 12-month quote for computer hardware will be nearly impossible as prices in the industry fluctuation dramatically over that period of time. Would it be possible to limit this to the June delivery date?
 - a. We will accept a bid that will not commit to pricing through the year, however, this will cause a reduction in points during the evaluation.
