Water Department**

Question 1:

While reading over Addendum I, more specifically questions # 3, we had noticed that the (2) lagoons that were cleaned in 2020 were done a few months apart. For this project, would the lagoons be able to be cleaned one right after another until the entire project is completed?

Answer:

There are three lagoons and we use two of them at a time. This allows us to take one off-line to dewater and clean out. We anticipate all three lagoons to be cleaned this year with approximately two to four months between each lagoon cleaning.
