

ADDENDUM NUMBER 2 TO THE BID DOCUMENTS

To all general contract bidders of record on the Bid Proposal titled:

**“WILLIAMSON COUNTY LANDFILL GLASS-LINED LEACHATE STORAGE TANK
INSTALLATION
CONTRACT BID DOCUMENTS AND SPECIFICATIONS JULY 2020”**

CEC Project Number 195-266

Addendum #2 Date: July 21, 2020

A. This Addendum shall be considered part of the bid documents for the above mentioned project as though it had been issued at the same time and shall be incorporated integrally therewith. Where provisions of the following supplementary data differ from those of the original bid documents, this Addendum shall govern and take precedence.

B. Bidders are hereby notified that they shall make any necessary adjustments in their estimates as a result of this Addendum. It will be construed that each bidder's proposal is submitted with full knowledge of all modifications and supplemental data specified herein.

The bid documents are modified and clarified, as follows:

Addendum #2 Items:

Item #1: A question has been received regarding the handrails for the containment area:

“Is handrail to be stainless (assume 304L), painted carbon steel or galvanized carbon steel.”

Railing will be galvanized carbon steel.

Item #2: To re-emphasize again, the current containment area for the existing tanks contains rainwater. It is the Contractor’s responsibility, as part of this work, to pump out the contents of the containment area and clean the containment area prior to the placement of new construction

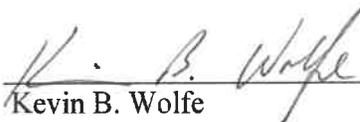

materials, including doing any work on connection piping, within the existing containment area. Content of the containment area is stormwater, which will be discharged (in a non-erosive manner) to the existing drainage channel located south of the current tank containment area.

Item #3: To clarify, the Notice of Award will be issued by Tuesday August 25, 2020. Site mobilization can occur on or after Thursday August 27, 2020, with the caveat that 48 hours' notice must be given to the Engineer and Owner before mobilization.

End of Addendum #2
