19  
20 **END OF ADDENDUM NO. 1r**

# MOSELEYARCHITECTS

## General Clarifications & Information:

- **Information:**
  - Site Visits –All site visits are postponed until further notice.
  - Project Phasing – The drawings note that there is casework for additional cooking stations that will be furnished and installed at a future time. All the infrastructure rough-in for the future casework scope is included in the current project.
- **Clarifications:**
  - Insulation above ceilings – if present, re-use/re-place the existing insulation.
  - VCT Flooring Material at the removed oven in special needs – We will check to see if the District has attic stock material that can be used to patch the VCT flooring if necessary.
  - AWI Certification for Interior Architectural Casework – Work shall be done to AWI standards as outlined in the specification; however, certification is not required by the fabricating or installing contractor.
  - Ceiling Tile Recycling – It is encouraged that all re-placed ceiling tiles be recycled, but it is not a project requirement.
