Addendum

SOLICITATION NAME	Sealing & Re-Striping at Montgomery Village C15010	ADDENDUM NUMBER	1	DATE	10-07-14
--------------------------	--	------------------------	---	-------------	----------

Q1	How much money is budgeted? This is difficult to answer authoritatively since it is part of KCDC’s capital budget and if other projects cost more or less than anticipated, it affects the amount available for all other projects. As of this date, approximately \$185,000 is allotted for this project.
Q2	What is the number of business days allowed to complete the work? A maximum of 60 workdays is available for the project (whether all at once or broken across 2014 and 2015).
Q3	Will you allow the successful vendor to work as much as possible in November and complete the work in the new paving year (probably April)? Yes that is agreeable.
Q4	Are repairs included or will they be dealt with as they are discovered while paving? Other than repairs in front of dumpsters (which KCDC will have concreted), repairs are to be included in the bid price.
Q5	Detail the nature of the work desired please. The vendor will first “squeegee” a 1/8 inch layer on the areas and then follow up with a spray application.
Q6	Does KCDC still want both styles of surfacing bid? Yes.
