

WILLIAMSON COUNTY GOVERNMENT

Addendum #1 **Highway Dump Trucks** **Bid Date August 17, 2021**

Williamson County has received the following question:

Q: On the last page of the truck specs it states: All Standard warranties in addition to standard 5yr/250k mile engine warranty. Add extended warranty equivalent to Detroit EW4. Are you wanting the extended warranty included in the price of the truck or as an option? Detroit EW4 is exclusive to Freightliner and western star without some documentation we have no way of knowing if ours is equivalent.

A: *We want the extended warranty priced as an option. Revised bid sheet is included and also included is a specification sheet for the warranty that identifies levels.*

DETROIT EXTENDED SERVICE COVERAGE PLAN EW1-EW2-EW3-EW4

Terms of Coverage

Detroit Diesel Corporation ("Detroit") offers the following Extended Service Coverage options for Detroit™ engines. Only engines that are sold at retail and used in the U.S. and Canada are eligible for coverage. In addition, the Extended Service Coverage Level provided and the applicable Coverage Period may vary. Please review the Power Protection Plan ("P3") registration materials for details.

Under the Extended Service Coverage plan, Detroit will pay for the parts and labor necessary to repair a Covered Component that fails during normal use and service due to defects in material or workmanship ("Covered Failure") and that is reported to an authorized Detroit service outlet during the Coverage Period. Extended Service Coverage includes the removal, repair, or replacement of the Covered Component and the replacement of service supplies, i.e., coolant, belts, oil, when not reusable as a result of a Covered Failure, and includes the repair of progressive damage to any engine part resulting from a Covered Failure. All repairs must be performed by an authorized Detroit service outlet.

The applicable Coverage Period begins after the new product warranty for the Eligible Product expires, and ends when the time or distance limit specified in the P3 registration materials is reached (whichever occurs first). Time and distance limits are measured from the date of delivery to the first retail purchaser. Any remaining Extended Service Coverage will automatically transfer to subsequent owner(s).

The following table shows the Covered Components associated with each Extended Service Coverage Level:

Coverage Level	COVERED COMPONENTS
EW1	<p>Engine Components: air inlet manifold, air intake throttle valve, alternator bracket*, belt tensioner, camshaft assembly (including seals), cold pipe assembly, connecting rod, bearings and bolts, cooler inlet pipe, crankshaft breather oil separator, crankshaft thrust washer, cylinder block, cylinder head assembly, cylinder head gasket, cylinder liner, EGR system, engine-mounted sensors, exhaust manifold and bellows, fan support assembly, flywheel, housing and gasket, fuel filter housing, gear case, gear train, gear train / timing case gasket, high-pressure fuel system and lines, hydraulic pump*, integrated engine brake, low-pressure fuel pump, main bearing bolts, main bearings, MCM/CPC, oil cooler housing and gaskets, oil pan and seals, oil press regulator and relief valves, oil pump, pistons (rings, pins, retainers), rocker arm assembly, rocker cover and seals, thermostat housing and gasket, turbo compound device and coupling, turbocharger outlet elbow, valves (exhaust, intake), valve springs, guides, inserts, vibration damper, water pump (excludes water pump seal)</p> <p>*if supplied by Detroit</p>
EW2	<p><i>all EW1 components plus:</i></p> <p>Additional Engine Components: air compressor**, fuel injectors, turbocharger, water pump seal</p> <p>**air compressor covered under EW2 for GHG 14; for EPA10 covered under EW3</p>
EW3	<p><i>all EW2 components plus:</i></p> <p>Additional Engine Components: seals - front and rear crankshaft</p> <p>Aftertreatment Support System Components: aftertreatment pressure sensors, aftertreatment temperature sensors, aftertreatment control module, DEF pump / metering unit / injection unit, electrical harness and connectors*, hydrocarbon fuel line, hydrocarbon injection valve, hydrocarbon metering unit, aftertreatment NOx sensors</p> <p>*if supplied by Detroit</p>
EW4	<p><i>all EW3 components plus:</i></p> <p>Aftertreatment System Components: aftertreatment system mounting brackets and clamps, diesel oxidation catalyst and housing, diesel particulate filter and housing, SCR catalyst and housing</p>

REVISED 7/20/2021
(3) DUMP TRUCKS, TANDEM AXLE, CONVENTIONAL CAB AND CHASSIS WITH
