ADDENDUM NO. 1

Date Issued: October 6, 2022

Bid Title: RFQ#2022-93302(MR) Architectural / Engineering Services for Sullivan County Department of Education Central Middle School Track Resurfacing Project

Re: Request for Qualifications (RFQ)

This addendum is issued to answer questions as of 10/06/2022 for RFQ#2022-93302(MR) Architectural/ Engineering Services for Sullivan County Department of Education Central Middle School Track Resurfacing Project and shall be considered as part of the contract.

1. **Question** – It appears that the work mentioned in the RFQ only includes repaving the asphalt track and the installation of a polyurethane surface on top of the new asphalt track?

Answer: The scope includes the repaving and installation of surfacing system on the track and the two jump areas at the end zones.

2. **Question** – Page 13 of the RFQ under “Project Information” indicates “the installation of a track and field surfacing system”. This leads me to ask if there will be any work to the football field included in this contract?

Answer: No, the football field is not included in this project. Only the track and the jump areas at the end zones.

3. **Question** –It appears if the only work is the track work mentioned in Item#1 above, there will be no need for any architectural services and all services required will be site work type engineering services? No buildings anticipated as part of this contract?

Answer: Yes, that is correct. The scope of work does not include buildings. However, both Architectural and Engineering Firms may submit proposals for consideration.

End of Addendum No. 1
