

Q&A RFP 202306

1. Does this RFP require 2 separate bids, one for extraditions and one for intrastate transports or are you looking for a comprehensive bid for all transports indicated? **Franklin County only requires one response for all transports.**
2. For this RFP would you consider a bid for extraditions only? Intrastate only? **Intrastate extraditions only, we normally do not use a contracted agency for intrastate transports.**
3. For this RFP would you consider a quote for an hourly rate as opposed to a per mile rate? **No, Franklin County is wanting a per mile rate.**
4. For this RFP approximately how many extraditions are performed annually and what is the average total miles driven? **In 2022 we used a transport company for 19 extraditions and the total miles for those 19 was 14,358.**
5. For this RFP approximately how many intrastate transports are performed annually and what is the average total miles driven? **0 for contracted agencies, we use our own personnel for intrastate transports.**
6. The commercial Automobile Liability Limits are at \$3,000,000.00 per occurrence would \$1M in liability-then the \$1M excess, combined for a total of \$2M be acceptable? **This will be confirmed with our county counsel when he returns, but as of now these limits were set for the County standard for this scope of work.**
7. In the event of staffing constraints is it acceptable to send 2 male agents instead of a female, when a female must be transported? **Yes.**
